ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Since defining this course 30 years ago, Paul Hewitt's best-selling text continues to be the benchmark book that two-thirds of professors use and by which all others are judged. In *Conceptual Physics with MasteringPhysics®*, 11/e Paul Hewitt shows how a compelling text and the most advanced media can be integrated to empower professors as they bring physics to life for non-science majors, both in and out of class. For the Eleventh Edition, Hewitt helps students connect physics to their everyday experiences and the world around them, and provides additional help on solving mathematical problems. Hewitt's text is famous for engaging students with analogies and imagery from real-world situations that build a strong conceptual understanding of physical

principles ranging from classical mechanics to modern physics. With this strong foundation, students are better equipped to understand the equations and formulas of physics, and are motivated to explore the thought-provoking exercises and fun projects in each chapter. The new edition features a fresh new design, content that is more focused on physics applications, updated pedagogical features, and access to MasteringPhysics. 0321776720 / 9780321776723 *Conceptual Physics with MasteringPhysics®* Package consists of: 0321784456 / 9780321784452 *MasteringPhysics®* with Pearson eText -- Valuepack Access Card -- for *Conceptual Physics* 0321787951 / 9780321787958 *Conceptual Physics*
