Frontiers in Public Health: Editor's pick 2022-23 Paolo Vineis 2024-11-01 Welcome to our Editor's Pick collection for Frontiers in Public Health, showcasing a curated selection of the most impactful and innovative articles in the field. These articles were specially hand-picked by our Field Chief Editor, Professor Paolo Vineis, of Imperial College London. This compilation highlights the breadth and depth of contemporary public health research, featuring studies that address pressing global health challenges and propose practical solutions. We have categorized the selected articles into 8 categories for ease of readership: Aging and Chronic Diseases; Child and Maternal Health; Environmental Health and Climate Change; Infectious Diseases; Implementation Science and Experimental Studies; Health Inequalities and Social Determinants of Health; Mental Health and Emerging Public Health Issues. Each chosen article not only advances scientific understanding but also underscores the importance of evidence-based practices and policies in improving population health. We are proud to present this diverse array of research that not only reflects the current state of the field but also aims to inspire further inquiry and innovation. 2022 and 2023 were landmark years for the journal, which saw tremendous growth and interest in open access. Our goal is to spotlight the exceptional work of our authors, foster readership and innovation through our open-access principles, and extend our gratitude to our Editorial Board for their persistent dedication and teamwork.

ICD-10-CM: Official Guidelines for Coding and Reporting - FY 2019 (October 1, 2018 - September 30, 2019)

Centers for Medicare and Medicaid Services (CMS) 2018-08 These guidelines have been approved by the four organizations that make up the Cooperating Parties for the ICD-10-CM: the American Hospital Association (AHA), the American Health Information Management Association (AHIMA), CMS, and NCHS. These guidelines are a set of rules that have been developed to accompany and complement the official conventions and instructions provided within the ICD-10-CM itself. The instructions and conventions of the classification take precedence over guidelines. These guidelines are based on the coding and sequencing instructions in the Tabular List and Alphabetic Index of ICD-10-CM, but provide additional instruction. Adherence to these guidelines when assigning ICD-10-CM diagnosis codes is required under the Health Insurance Portability and Accountability Act (HIPAA). The diagnosis codes (Tabular List and Alphabetic Index) have been adopted under HIPAA for all healthcare settings.

Health Care Transition Albert C. Hergenroeder 2018-05-03 This comprehensive book thoroughly addresses all aspects of health care transition of adolescents and young adults with chronic illness or disability; and includes the framework, tools and case-based examples needed to develop and evaluate a Health Care Transition (HCT) planning program that can be implemented regardless of a patient's disease or disability. *Health Care Transition: Building a Program for Adolescents and Young Adults with Chronic Illness and Disability* is a uniquely inclusive resource, incorporating youth/young adult, caregiver, and pediatric and adult provider voices and perspectives. Part I of the book opens by defining Health Care Transition, describing the urgent need for comprehensive transition planning, barriers to HCT and then offering a framework for developing and evaluating health care transition programs. Part II focuses on the anatomic and neuro-chemical changes that occur in the brain during adolescence and young adulthood, and how they affect function and behavior. Part III covers the perspectives of important participants in the HCT transition process – youth and young adults, caregivers, and both pediatric and adult providers. Each chapter in Part IV addresses a unique aspect of developing HCT programs. Part V explores various examples of successful transition from the perspective of five key participants in the transition process – patients, caregivers, pediatric providers, adult providers and third party payers. Related financial matters are covered in part VI, while Part VII explores special issues such as HCT and the medical home, international perspectives, and potential legal issues. Models of HCT programs are presented in Part VIII, utilizing an example case study. Representing perspectives from over 75 authors and more than 100 medical centers in North America and Europe, *Health Care Transition: Building a Program for Adolescents and Young Adults with Chronic Illness and Disability* is an ideal resource for any clinician, policy maker, caregiver, or hospitalist working with youth in transition.
