**Sams Teach Yourself Microsoft Excel 2000 Programming in 21 Days** Matthew Harris 1999 Sams Teach Yourself Microsoft Excel 2000 Programming in 21 Days gives you the skills you need to get up and running efficiently. With this complete tutorial, you'll master the basics and move on to the more advanced features and concepts. Learn to add new functions and capabilities to your Excel files and applications. Explore built-in functions, arrays, subroutines, error handling, string operators and expressions, variables, and constants--all in detail. Step-by-step lessons show you how to use Visual Basic to control different applications from within Excel, and more.

**Microsoft Office Programming** Rod Stephens 2008-01-01 By using the same back-end macro programming language, Visual Basic for Applications (VBA), Microsoft Office applications allow users to easily transfer their VBA programming skills from one Office product to another. A developer skilled at using VBA to program Access can quickly learn to program Word or Excel. Better still, VBA is a fairly complete subset of Visual Basic (VB). That means a VB developer already knows how to use VBA, and a VBA programmer knows a lot about VB. Author Rod Stephens gives you the most valuable information possible as quickly as possible without rehashing the trivial VB and VBA details you already can recite in your sleep. In *Microsoft Office Programming: A Guide for Experienced Developers*, Stephens skips the tiresome explanations of variable declarations and dives right into serious Office programming topics, such as automatically customizing menus and toolbars with VBA, making Object Linking and Embedding (OLE) do your work for you, and using ADO to manipulate data in an Access database.

**Excel Programming for Windows 95 for Dummies** John Walkenbach 1996 Finally, here is an easy-to-understand book on Excel programming that introduces the user to language elements using realistic and practical examples. This reference covers all the commonly used aspects of Visual Basic for Applications (VBA). A Top Ten List gives the top 10 questions and answers.
