Math Skills by Objectives Cambridge Adult Education 1988-03 Math Skills by Objectives teaches basic math skills and shows students how to apply the skills they have learned to their daily lives. This three-volume program is organized by learning objectives -- subskill by subskill -- so that both students and teachers know exactly what their goals are. The evenly paced, methodical style of instruction develops student confidence and mastery so students never go on to a new subskill or skill unless they have mastered the previous one. Book 3 reviews the basic math operations taught in Book 1 but at a more advanced level.
