CIMA F1 BPP Learning Media

2012-09-01 F1 builds on

knowledge from paper C2 and introduces tax at a very basic

level; it is not based on any tax regime. Financial reporting is a

major part of the syllabus, both single company and group

accounts are examined in the

two '25-mark' questions in

section C. New financial

reporting topics introduced at this level are: group accounts;

construction contracts;

financial instruments; and

leases. It has four main

sections: The principles of

business taxation The

principles of regulation of financial reporting Preparation of financial statements which conform with IFRS Consolidated financial statements The study text concentrates on the key areas of the syllabus, taking into account the way in which topics are examined. The text has a step-by-step approach to producing financial statements and lots of exercises in which you can practice the workings. We guide you through the more problematic topics which can be brought into the preparation of single company and group financial statements, and give you plenty of examples.
