My Own Liberator Dikgang Moseneke 2016-10-01 A powerful memoir of activism, dedication, and a life committed to justice and equality in apartheid-era South Africa. 'My Own Liberator spans some eight decades and sheds light on a remarkable and distinguished life as well as on of the history of South Africa and leading figures in changing times to paint a compelling double portrait of the author's personal life and the history of South Africa's journey from apartheid to democracy.' — SALA citation 'The first of a two-part memoir, the former deputy chief justice writes movingly of the many people who influenced him on the road to becoming one of the most respected legal minds in South Africa.' — Tymon Smith, *The Times* 'Justice Dikgang Moseneke's biography, *My Own Liberator*, is a welcome instalment in the increasing body of African literature and biographies ... Through this book he has allowed us a sneak preview of his still-incomplete life, and this book is recommended for its wit, depth and lucidity.' — Thami Ka Plaatjie, *Sunday Independent Dispatches* '... a beautiful memoir that is simultaneously poignant and enthralling **My Own Liberator* charts a life from Pretoria's version of

Sophiatown, Lady Selborne, to Atteridgeville, Robben Island as South Africa's youngest political prisoner, lawyer, silk and finally after becoming acclaimed one of our most revered jurists ever.' — Kevin Ritchie, *Weekend Argus* In *My Own Liberator*, Dikgang Moseneke pays homage to the many people and places that have helped to define and shape him. Tracing his ancestry, the influence on both his maternal and paternal sides is evident in the values they imbued in their children - the importance of family, the value of hard work and education, an uncompromising moral code, compassion for those less fortunate and unflinching refusal to accept an unjust political regime or acknowledge its oppressive laws. As a young activist in the Pan-Africanist Congress, at the tender age of fifteen, Moseneke was arrested, detained and, in 1963, sentenced to ten years on Robben Island for participating in anti-apartheid activities. Physical incarceration, harsh conditions and inhumane treatment could not imprison the political prisoners' minds, however, and for many the Island became a school not only in politics but an opportunity for dedicated study, formal and informal. It set the young Moseneke on a path towards a law degree that would provide the bedrock for a long and fruitful legal career and see him serve his country in the highest court. *My Own Liberator* charts Moseneke's rise as one of the country's top legal minds, who not only helped to draft the interim constitution, but for fifteen years acted as a guardian of that constitution for all South Africans, helping to make it a living document for the country and its people. Winner of the Creative Non-Fiction Award at the 2017 South African Literary Awards (SALA), shortlisted for the 2017 Sunday Times Alan Paton Award, and shortlisted for the 2018 Humanities and Social Sciences Award for Best Non-Fiction: Monograph, this memoir is a testament to the power of perseverance, principle, and the pursuit of justice.

Reclaiming Education James Tooley 2005-03-01 What is wrong with

education? Why do educational reforms always miss their target? How can we create a better education system? And what can we learn from other countries? Reclaiming Education tackles the challenges facing education that really matter - the ones that academics often ignore, parents demand solution to and politicians need to confront. Drawing on his global research, James Tooley shows that there is an alternative to poor quality and wasteful inefficiency in education, and that education can be radically transformed to guarantee freedom and higher standards. "Tooley radically challenges any complacency we may have about education in the 21st century." Sir Bob Salisbury "Tooley is an extremist: some of his ideas are outrageous!" Professor Geoffrey Walford, University of Oxford "This is truly a radical book. It should be read by everyone who thinks deeply about education." Sir Christopher Ball

The Global Education Industry James Tooley 1999 The author challenges the conventional wisdom that private education in developing countries fosters greater social and economic inequality, he points out that such education often provides creative social responsibility programmes, subsidised places, and student loan schemes."--BOOK JACKET. "He concludes with a modest proposal for how for-profit education enterprises could play an important role in promoting equitable development."--Jacket.

Investigating Complex Phenomena: Bridging between Systems Thinking and Modeling in Science Education Tom Bielik 2023-11-15

Understanding the complexity of the natural world and making sense of phenomena is one of the main goals of science and science education. When investigating complex phenomena, such as climate change or pandemic outbreaks, students are expected to engage in systems

thinking by considering the boundaries of the investigated system, identifying the relevant components and their interactions, and exploring system attributes such as hierarchical organization, dynamicity, feedback loops, and emergence. Scientific models are tools that support students' reasoning and understanding of complex systems, and students are expected to develop their modeling competence and to engage in the modeling process by constructing, testing, revising, and using models to explain and predict phenomena. Computational modeling tools, for example, provide students with the opportunity to explore big data, run simulations and investigate complex systems. Therefore, both systems thinking and modeling approaches are important for science education when investigating complex phenomena.
