## **Implementation Guidelines on Part B of the Code, the Voluntary Guidelines and the Safety Recommendations**

Food and Agriculture Organization (FAO) 2014 The Implementation Guidelines are intended for the attention of maritime, labor and fisheries ministries and any other relevant government ministry as and when it is decided to implement the three FAO/ILO/IMO instruments on the design, construction and equipment of fishing vessels of all types and sizes. Those instruments are Part B of the Code of Safety for Fishermen and Fishing Vessels, the Voluntary Guidelines for the Design, Construction and Equipment of Small Fishing Vessels, and the Safety Recommendations for Decked Fishing Vessels of Less than 12 metres in Length and Undecked Fishing Vessels. While the intention is not to provide a single prescription to improve safety, the Guidelines do seek to raise awareness and offer guidance on a broad range of issues which must be addressed in an effective and holistic manner. In this regard, the cooperation and coordination between maritime, labor and fisheries administrations is important, particularly where the responsibilities for safety of fishing vessels are divided under relevant Acts. The Implementation Guidelines cover areas such as: development of a safety strategy; legal implications; administrative requirements; capacity-building; training of crew members; enforcement of regulations; and operational safety. Although the main purpose of the Implementation Guidelines is to assist competent authorities in the implementation of voluntary instruments, it could also be useful when implementing the provisions of the Cape Town Agreement of 2012 on the Implementation of the Provisions of the 1993 Protocol relating to the Torremolinos International Convention for the Safety of Fishing Vessels, 1977.

*United States Code* United States 2013 "The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress,

Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office"--Preface.
