Securities Regulation & Law Report 2003

The United States Navy's Pivot to Asia Bruce A. Elleman 2023-06-30 This book examines the origins of the US Navy's 2007 Maritime Strategy, the

formation of the US government's "Pivot to Asia" strategy, and the most recent revisions to this strategy that focus more specifically on China. Besides examining the details of this strategy formulation, the book explores the internal and external repercussions on the US Navy of the Pivot to Asia. It discusses the "Fat Leonard" scandal, which involved bribery and corruption in contracts for the maintenance of the US fleets in the region, and considers the sharp decrease in training and readiness of the Pacific fleet to support the pivot, which in turn led to serious maritime collisions. It also assesses the impact of the pivot on other countries in the region, engaging in the debate as to whether the pivot was necessary in order to convince the countries of the region that the United States had not lost its staying power, or whether the pivot managed to make tensions in the Asia-Pacific worse even while allowing the strategic situation in the Middle East and Europe to

worsen as a result of neglect.

BNA Pension & Benefits Reporter 2005-07

Reporting Inequality Sally Lehrman 2019-03-04 Under increasingly intense newsroom demands, reporters often find it difficult to cover the complexity of topics that deal with racial and social inequality. This path-breaking book lays out simple, effective reporting strategies that equip journalists to investigate disparity's root causes. Chapters discuss how racially disparate outcomes in health, education, wealth/income, housing, and the criminal justice system are often the result of inequity in

opportunity and also provide theoretical frameworks for understanding the roots of racial inequity. Examples of model reporting from ProPublica, the Center for Public Integrity, and the San Jose Mercury News showcase best practice in writing while emphasizing community-based reporting. Throughout the book, tools and practical techniques such as the Fault Lines framework, the Listening Post and the authors' Opportunity Index and Upstream-Downstream Framework all help journalists improve their awareness and coverage of structural inequity at a practical level. For students and journalists alike, Reporting Inequality is an ideal resource for understanding how to cover structures of injustice with balance and precision.
