Exploring Ecological Hermeneutics Norman C.

Habel 2008 What has hermeneutics to do with ecology? What texts, if any, come to mind when you consider what the scriptures might say about environmental ethics? To help readers think critically and clearly about the Bible's relation to modern environmental issues, this volume expands the horizons of biblical interpretation to introduce ecological hermeneutics, moving beyond a simple discussion about Earth and its constituents as topics to a reading of the text from the perspective of Earth. In these groundbreaking essays, sixteen scholars seek ways to identify with Earth as they read and retrieve the role or voice of Earth, a voice previously unnoticed or suppressed within the biblical text and its interpretation. This study enriches eco-theology

Juvenile Delinquency in a Diverse Society Kristin A. Bates 2020-01-21 | "Juvenile Delinquency in a Diverse Society, Third Edition presents students with a fresh, intersectional examination of juvenile delinquency in the context of real communities and social policies-integrating many social factors that shape juvenile delinquency and its control, including race, ethnicity, class, gender, and sexuality. Authors Kristin A. Bates and Richelle S. Swan use

true stories and contemporary examples to link theories of delinquency not just to current public policies, but to existing community programs-encouraging readers to consider how theories of delinquency can be used to create new policies and programs in their own communities. Readers will gain a foundational understanding of the social diversity that contextualizes varying experiences and behavior of juvenile delinquency, as well as a deeper appreciation for the policies, social justice, and community programs that make up the juvenile system"--
