The Common Core Companion: The Standards Decoded, Grades 6-8 Jim Burke 2013-08-30 "I love what Jim Burke has done to make the Standards less threatening and more useful for teachers. In particular, the indicators for what students and teachers should be doing, given the Standard, are extremely helpful; as are such a clear glossary and illuminating examples. All in all, The Common Core Companion is bound to be enormously useful and thus dog-eared!"-Grant Wiggins, President, Authentic Education, Hopewell, NJ That version of the 6-8 standards you wish you had Don't spend another minute poring over the standards. Jim Burke has already done the hard work for you with this roa.

Prove It! Using Textual Evidence, Levels 6-8 Melissa Cheesman Smith 2018-03-01 Knowing how to cite textual evidence is a key component in reading and writing in education today. This resource equips teachers with the strategies they need to teach students how to cite and annotate textual evidence when reading and writing. Secondary school students will learn how to find evidence to support their opinions, incorporate that evidence in their writing, and accurately cite their sources. The ten lessons include proper MLA formatting, paraphrasing, using block quotation, creating a bibliography, the use of credible sources, avoiding plagiarism, and more. Students will apply what they've learned through twenty practice exercises. Citing textual evidence powerfully strengthens students' writing, develops analytical thinking and logic, and readies students for college and career with lessons that are aligned to McREL, TESOL, and WIDA standards.

The 12 Touchstones of Good Teaching Bryan Goodwin 2013-08-19 Checklists help us work better. They help us manage complex tasks more effectively and ensure we apply what we know correctly and consistently. They've become indispensable for airline pilots and doctors, but can this low-tech approach to planning and problem solving demand a place in the teacher's toolkit? Teaching is complicated, with challenging decisions and important consequences, but it's in the most complex situations that a straightforward checklist can be the most useful. Goodwin and Hubbell present 12 daily touchstones—simple and specific things any teacher can do every day—to keep classroom practice focused on the hallmarks of effective instruction and in line with three essential imperatives for teaching: * Be demanding: Align teaching with high expectations for learning. * Be supportive: Provide a nurturing learning environment. * Be intentional: Know why you're doing what you're doing. If there were one thing you could do each day to help one student succeed, you'd do it, wouldn't you? What about three things to help three students? What if there were 12 things you could do every day to help all of your students succeed? There are, and you'll find them here.

Challenging Common Core Language Arts Lessons Magdalena Fitzsimmons 2021-09-03 This book, from the Center for Gifted Education at William & Mary, provides gifted and advanced learners challenging activities to master and engage with the Common Core State Standards for English Language Arts through four mini units. Each mini unit is packed with activities that enrich and extend grade-level ELA content for grade 5. Included texts have messages and characters that are developmentally suitable for students. Through higher order reasoning questions, resulting discussions, and student-created products associated with these texts, gifted and advanced students' needs are met while still maintaining messages and characters to which students can relate. Students will be exposed to themes such as the hero's journey, success from failure, journey as a symbol for change, and conflict. Each theme was chosen with advanced fifth-grade students in mind and their emerging need to learn more about themselves, their world, and how to work through adversity to accomplish their goals. The GIR model includes five coaching interactions that vary incrementally in level of support. This book guides mentors and coaches in refining the approaches they use to provide differentiated support, from preservice teacher to expert practitioner"--

Becoming a College Writer: A Multimedia Text for Students Like You Todd Taylor 2018-09-28 Based on 100 interviews with students who had recently finished first-year writing, Todd Taylor's groundbreaking multimedia text is shaped by student writers like no other textbook before. Their words and voices—in brief videos and example texts—create a conversation about writing that asks students to engage with other college writers personally, learning from their challenges and successes. Conceived as a multimedia text in LaunchPad from the outset, the brief, modular chapters are organized into four parts that support the best practices and content areas in the CWPAs Outcomes Statement — Rhetoric, Context, Process, and Convention — so that you and your students have just what you need in one resource to support writing, working with sources, and multimodal composing.
