Online around the World Laura M. Steckman 2017-05-24 Covering more than 80 countries around the world, this book provides a compelling, contemporary snapshot of how people in other countries are using the Internet, social media, and mobile apps. How do people in other countries use the social media platform Facebook differently than Americans do? What topics are discussed on the largest online forum—one in Indonesia, with more than seven million registered users? Why does Mongolia rate in the top-ten countries worldwide for peak Internet speeds? Readers of *Online around the World: A Geographic Encyclopedia of the Internet, Social Media, and Mobile Apps* will discover the answers to these questions and learn about people's Internet and social media preferences on six continents—outside of the online community of users within the United States. The book begins with an overview of the Internet, social media platforms, and mobile apps that chronologically examines the development of technological innovations that have made the Internet what it is today. The country-specific entries that follow the overview provide demographic information and describe specific events influenced by online communications, allowing readers to better appreciate the incredible power of online interactions across otherwise-unconnected individuals and the realities and peculiarities of how people communicate in today's fast-paced, globalized, and high-technology environment. This encyclopedia presents social media and the Internet in new light, identifying how the use of language and the specific application of human culture impacts emerging technologies and communications, dramatically affecting everything from politics to social activism, education, and censorship.

The Linguaging of Higher Education in the Global South Sinfree Makoni 2022-01-06 By foregrounding language practices in educational settings, this timely volume offers a postcolonial critique of the languaging of higher education and considers how Southern epistemologies can be used to further the decolonization of post-secondary education in the Global South. Offering a range of contributions from diverse and minoritized scholars based in countries including South Africa, Rwanda, Sudan, Qatar, Turkey, Portugal, Sweden, India, and Brazil, *The Linguaging of Higher Education in the Global South* problematizes the use of language in various areas of higher education. Chapters demonstrate both subtle and explicit ways in which the language of pedagogy, scholarship, policy, and participation endorse and privilege Western constructs and knowledge production, and utilize Southern theories and epistemologies to offer an alternative way forward – practice and research which applies and promotes Southern epistemologies and local knowledges. The volume confronts issues including integrationism, epistemic solidarity, language policy and ideology, multilingualism, and the increasing use of technology in institutions of higher education. This innovative book will be of interest to researchers, scholars, and postgraduate students in the fields of higher education, applied linguistics, and multicultural education. Those with an interest in the decolonization of education and language will find the book of particular use.

Sustainable Development Goals for Society Vol. 1 Godwell Nhamo 2021-06-16 Written by 43 authors from Africa, Europe and Latin America, this book presents 19 topics addressing poverty in the context of Sustainable Development Goals (SDGs), leadership in implementing SDGs, and SDGs in service delivery and local government. As the world has gone past five years of implementing the 2030 Agenda for Sustainable Development and the intertwined 17 SDGs, new opportunities in research continue to open up. Hence, documenting some of the initiatives put in place around the world regarding the implementation of the SDGs is one of the aims of this publication. With 10 years remaining, the book further enhances the

desire to scale up SDGs implementation. The selection of case studies from the selected regions also provides a balance in terms of how the SDGs are being rolled out for economic growth, environmental stewardship and social protection. The ambition remains even with the challenge brought by the COVID-19 pandemic that preoccupied the whole of 2020; spilling over to 2021. There is no doubt that resources have been diverted, but the world must stay on the course to 2030 and beyond. Therefore, the book is relevant for several stakeholders including the academics, development partners, government officials and other individuals that are involved in making sure no one is left behind in the lead to 2030.

Ruptured Commons Anna Guttman 2024-10-10 At a time when we have all lived through profound and unexpected disruptions to our shared spaces, routines, economies, societies, and work-lives, this book considers the nature and implications of rupture, the commons, and their conjoining. Addressing rupture and disruption through the lens of literary and cultural studies, this volume traverses genres — film, fiction, theatre, poetry, and the graphic novel — and continents, and addresses histories and identities as ecologies. The focus is resolutely contemporary, with nearly all of the texts being analyzed produced within the last decade. Beginning with the history of, and debates about, Garrett Hardin's famous "tragedy of the commons," *Ruptured Commons* engages with texts and cultures of disaster wherein artistic expression becomes a form of protest and a path to change. This collection both critically examines our arrival at and understanding of this moment, and explores diverse, and hopeful, visions for the future embedded within contemporary culture.

How to Complete Your UCAS Application: 2016 Entry Beryl Dixon 2015-05-01 For the inside track on completing the UCAS form, students and their advisers need to look no further than this best-selling title. As well as providing top tips and dos and don'ts from current admission tutors, this book will guide the student through the entire higher education application process.

Changing Dimensions in Economic Development Debashis Mazumdar 2026-01-19 *Changing Dimensions in Economic Development: Theories and Empirics* examines the shift from the traditional welfare approach into a non-welfarist approach, which allows for treating individual welfare as multi-dimensional and takes into account the notions of capability, freedom of choice, and social justice.

University-Community Partnerships for Promoting Social Responsibility in Higher Education Enakshi Sengupta 2020-07-24 This book provides empirical evidence on how universities have considered social responsibilities as their prime focus, and engaged with civil society to enhance their values. Case studies from Indonesia to the United Kingdom enrich the book through experience, interventions and narratives.
