Spring Training Handbook Josh Pahigian

2013-05-21 Spring training is a time of renewal for baseball, when teams and fans descend on Florida and Arizona to begin the ever hopeful new season. The pace is a little slower, the fans are closer to the action, and the players are more accessible: the sport returns to its idyllic roots. When the first edition of this book was released, 18 of the MLB teams trained in Florida and 12 in Arizona. As 2013 arrives each league

consists of 15 teams; together they utilize 14 parks in Florida and 10 in Arizona. This heavily illustrated work dedicates a chapter to each park, including modern Cactus League marvels like Camelback Ranch and Salt River Fields, and Grapefruit League bastions like Joker Marchant Stadium and McKechnie Field. Florida's Fenway Park replica, which opened in 2012, is included. In addition to profiling the five parks that have opened since the first edition, the author has updated the other chapters. Each provides a description of the park, and a recounting of its history, followed by a summary of the home team or teams' spring history. Next is a review of the park's seating, concessions and fan traditions. Each chapter concludes with information about nearby baseball landmarks and attractions.

The Vinyl Frontier Smartypants Romance

2023-05-02 What happens when an uptight preppy frat boy sets his sights on a punk rock princess? #superherolevelchaos Zack Worthington's life is a carefully curated performance. Controlled by his politician father, he stands on his mark and recites his lines. There's no room for deviation, no time for comic books and no patience for obscure Trekkie facts. He's all business, polished to a shine-the sparkling jewel in his father's crown. Then one night, Zack lays eyes on a girl he can't unsee... Open minded, self-sufficient, Deaf drummer, Molly Mills is working hard to find her rhythm in a competitive college music program. She's driven to prove herself to nearly everyone, even while living off of packaged noodles and thrift-store clothing. Watching her alone on the dance

floor, punky, free and wild, Zack told himself that opposites attract was totally not a real thing. But a couple days later when he realizes he's the teaching assistant in her research methodologies class, he can't ignore his instincts. He has to know her. Only Molly isn't interested in his platitudes and superficial chit-chat. Suddenly, all bets are off because this buttoned up, rule-following rich guy actually wants to be more than meets the eye... 'The Vinyl Frontier' is a full-length contemporary romance and can be read as a standalone. Book #4 in the Lessons Learned series, Educated Romance World, Penny Reid Book Universe.
