Introduction to Teaching Physical Education Jane M. Shimon 2025-04-11
Introduction to Teaching Physical Education, Third Edition, offers the ideal starting point for undergraduates to learn about the PE field—and get excited about teaching. Designed to cultivate a basic understanding of teaching and the critical pedagogical skills all PE teachers need.

Dynamic Physical Education Curriculum Guide Robert P. Pangrazi 2010 A valuable reference for both the pre-service and in-service elementary Physical Education teacher, this text complements *Dynamic Physical Education for Elementary School Children*, Sixteenth Edition. Teachers of kindergarten through sixth grade will benefit from using these lesson plans as a guide for presenting movement experiences and skills in a sequential and well-ordered manner. Plans also include ideas for integrating academic content into daily classes. The lessons are presented in three complete sets that cover unique developmental levels, grades K-2, 3-4, and 5-6. Each section contains a year-long syllabus to assist teachers with planning. This newly revised text includes all the information necessary to present a comprehensive lesson.

Elementary Heart Health Donna Baker 2001 Lesson plans for a circuit-training unit designed to teach upper elementary age students the importance of aerobic fitness and the skills required to evaluate their own heart health. Includes charts to post as reminders for students, record book examples, and a sample student Fitness Card. Teacher collects information from student fitness card and uses a simple point system that reduces the task of recording and grading hundreds of students. Criteria rubrics are explained thoroughly, student examples are given, and grading is discussed. Helps students meet NASPE physical education standards three and four.

It's Not Just Gym Anymore Bane McCracken 2001 This book doesn't just help students recognize and learn physical skills and understand why physical activity and fitness are important. It also keeps them motivated by showing them that they don't have to be athletic to be fit and by presenting more diverse activities that they can continue to enjoy as adults, such as walking, running, group fitness, outdoor adventure, golf, tennis, skiing, mountain biking, bow hunting, fly-fishing and weight training.
