**Modern Science and the Book of Genesis** James William Skehan 1986  
Based on the premise that knowledge of evolutionary theory is essential for understanding the natural world, this document was designed to assist science teachers and others as they consider the issues that influence the teaching of evolution. The position is taken that there is no conflict between data and sound theories based on science and religious beliefs based on the Bible. Information and perspectives are presented under the topic headings of: (1) "The Genesis of Genesis"; (2) "Early Science Interprets Genesis"; (3) "New Data"; (4) "Creationism versus Science"; and (5) "Two Kinds of Knowledge." References are listed and the National Science Teacher Association's position statement on the "Inclusion of Nonscience Tenets in Science Instruction" is included. (ML)
