**Theology and Film** Christopher Deacy  
2008-01-03 This introductory textbook uses appreciation of film to explore debates between theology and contemporary culture. It examines both method and theory and features a range of film examples throughout. Explores how film can enrich our study of theology, opening up debates surrounding contemporary culture and theological inquiry Addresses a broad range of themes, including religion and the sacred, human dignity, eschatology, war and peace, violence, justice, feminism, and the environment Includes sections on methodological considerations as well as theoretical perspectives Features examples from a range of films, including *Unforgiven*, *The Passion of Christ*, *An Inconvenient Truth*, *Jarhead*, *Something's Gotta Give*, and *Vanilla Sky* Accompanied by website resources available at [www.blackwellpublishing.com/theologyandfilm](http://www.blackwellpublishing.com/theologyandfilm).

**Introduction to Social Work** Lisa E. Cox  
2017-11-29 Winner of the 2019 Textbook Excellence Award from the Textbook & Academic Authors Association (TAA) The best-selling *Introduction to Social Work* takes students to the root of the social work profession by covering its history, practice settings, and career paths within a unique advocacy framework. This advocacy practice and policy model comprised of four components—economic and social justice, a supportive environment, human needs and rights, and political access—provides an effective lens for viewing today's social issues. Throughout the book, an emphasis on advocacy underscores the transformative opportunities and contributions of social work on not just the clinical/client level, but also at organizational, community, national, and international levels. The Second Edition closely aligns with the latest Educational Policy and Accreditation Standards (EPAS) from the Council on Social Work Education (CSWE) and references the 2018 Code of Ethics from the National Association of Social Workers (NASW). Through the authors' inclusion of reflective practice, students will be encouraged to engage

in critical thought and contemplate a career in social work. Free Poster: What Can You Do with a Degree in Social Work?

**Vulnerability of Agriculture, Water and Fisheries to Climate Change** Mohamed Behnassi 2014-07-15 Human activity is changing the global environment at an unprecedented rate while humanity faces a range of complex and interrelated challenges to local, regional and global development, human security and politics. Food security ranks high on the science, policy and development agendas. However, most research linking global change and food systems examines the impact of climate change on agricultural production, or the impact of agriculture on land use, pollution and biodiversity, overlooking interactions with other aspects of the food system – such as food processing, packaging, transportation and consumption and employment derived from these activities. This book demonstrates that new threats to food security which arise from environmental change require more than simply a focus on agricultural practices – what is needed is an integrated food system approach. The authors point out that the process of adapting food systems to global environmental change is not simply a search for technological solutions to increase agricultural yields. Tradeoffs across multiple scales among food system outcomes are a prevalent feature of globalized food systems. Within food systems, there are key underexplored areas that are both sensitive to environmental change and crucial to understanding its implications for food security and adaptation strategies. The authors assert that technical prescriptions alone will not efficiently manage the food security challenge. This book is their contribution to a new paradigm, which addresses food systems holistically by engaging researchers in multiple disciplines to understand the causes and drivers of vulnerability.

**An Inconvenient Truth** Ashley E. Davis  
2025-01-23 Crime made Christ's death a necessity. A simple choice in lies and deceit, a lapse in moral character, a choice to commit a simple criminal act against the Creator, paved the way for the cross. Jesus knew from before the beginning of creation that his death would atone for the lies, deceitfulness, and sinful choices of mankind. He knew, and he still made a way for us to him. This book discusses the personal element of crime in relation to Christian religious principles that made the cross necessary, while emphasizing the need for personal responsibility in light of criminological behavior.
