Inside Track to Successful Academic Writing Andy Gillett 2013-09-26 Successful Academic Writing guides students through the whole process of academic writing, developing their ability to communicate ideas and research fluently and successfully. From understanding the task and planning essays or assignments, right through to utilising feedback, it will ensure students are able to get much more out of the writing process.

Teaching a Lexis-based Academic Writing Course Lawrence J. Zwier 2006 Teaching a Lexis-Based Academic Writing Course is a companion to Building an Academic Vocabulary, which was written for students who need to develop college-level vocabulary skills. Building Academic Vocabulary (0-472-08589-1) helps students develop lexical precision as they work in such often-exercised modes as cause-effect, general description, description of processes, and comparison/contrast. Teaching a Lexis-Based Academic Writing Course will help instructors use Building an Academic Vocabulary more effectively, but it can also be used as a companion to any writing text and by instructors who want their writing course to have more of a focus on vocabulary. Each chapter includes additional practice exercise and five additional quizzes on collocations and common phrases, related forms, and additional vocabulary. This resource provides instructors with a valuable tool for helping students develop precision and fluency in their academic writing.

Discoveries in Academic Writing Barbara Harris Leonhard 2002 Students learn how to develop and organize unified essays through exploration of the principles of academic writing, critical thinking skills, rhetorical modes, and peer review.

Academic Writing Skills 1 Teacher's Manual Peter Chin 2012-07-12 Academic Writing Skills is a three-volume essay writing course for students that develops students' abilities to compose college-level essays. Academic Writing Skills 1 takes students through a step-by-step process from writing a paragraph to essays. It is appropriate for students new to academic writing who need general training in essay writing skills.

Academic Writing for International Students of Science Jane Bottomley 2014-07-25 Academic Writing for International Students of Science will help international students to develop their command of academic scientific writing in English. It guides students through the writing process itself, and will help them to produce clear, well-written and well-organised essays and reports. The book covers a range of issues such as how to explain complex ideas clearly and concisely, how to develop a coherent argument, and how to avoid plagiarism by making effective reference to sources. Through detailed analysis of authentic scientific texts, the book will enhance students' understanding of the nature of academic scientific writing. This will enable them to understand how language and discourse function in a real scientific context. The texts serve as models of good writing and are followed by practice activities which will help students to develop their own writing skills. Key topics include: the writing process; academic scientific style; sentence structure; paragraph development; referring to sources; coherence, argument and critical thinking; academic and scientific conventions. This book will be an invaluable companion to those studying for a science or technology degree in an English-speaking institution. Informative study boxes, model answers and a clear, comprehensive answer key mean that the book can be used for self-study or with guidance in the classroom.
