**Evaluation of Bus Bulbs** Kay Fitzpatrick 2001 This report will be of interest to individuals and groups with a stake in the location and design of bus stops. These groups include public transportation organizations, public works departments, local departments of transportation, developers, and public and private organizations along or near bus routes. The research evaluated bus bulbs, an innovation in the design of bus stops found in several major North American cities. A bus bulb is a section of sidewalk that extends from the curb of a parking lane to the edge of a through lane. They are also known as curb extensions, nubs, and bus bulges.

**Tales from the Desert** Stuart Crocker 2021-08-08 'Tales from the Desert' is the compelling, true story of a British expatriate who journeyed to Saudi Arabia as a young man to seek his fortune for a couple of years and ended up staying for twenty-five. The collection of real-life tales are amusing, mystifying, captivating and at times downright terrifying. Journeying to the mystical deserts of Arabia in the 1970s, when the world economy revolved around the price of oil and the concept of Islamic fundamentalism was barely known, the author takes the reader through a joyride of experiences including the unfolding drama of the first Gulf War and a 'too close for comfort' view of the uprising during the Arab Spring.

**Effective Practices to Reduce Bus Accidents** Transit Cooperative Research Program 2001 This report presents a directory of effective practices used to prevent bus accidents at small, medium, and large transit systems. Most of the information was obtained from 182 transit systems in the United States and in Canada and from statewide transit insurance pools in six states. The directory is designed to be used by transit management, operations, and safety personnel.
