Enhancing Performance Sandra J. Balkema 2021-06-01 *Enhancing Performance: A Best Practices Guide for Innovations in Community Colleges* is a collection of essays from community college leaders across the country addressing challenges facing today's community colleges and providing practical, successful solutions their institutions have implemented. Some of the essays address foundational issues, including the role of innovation, strategic enrollment management, and campus safety strategies on the future of community colleges. In the essays, leaders suggest ways campuses can create opportunities for intentional

student-faculty connections, provide revitalized advising services, and support the needs of marginalized student populations. The essays also address the role of community colleges in promoting civic engagement, responding to community crises, and addressing critical need. Each essay challenges us to delve deeper into the issues and find workable solutions. The essay authors are community college leaders who are alumni, faculty, or advisory board members in the doctoral program in Community College Leadership (DCCL Program) at Ferris State University (Michigan).

For Students' Sake! Carmen R. Allen 2020-01-07 *For Students' Sake! Bold Solutions for the College Retention Crisis* By: Carmen R. Allen College students face numerous obstacles before they step into the classroom and then again when their academic careers begin. As such, the decline of student retention and success threatens the health of universities across the nation. Universities are challenged by declining enrollments, reduced financial resources, and an increased demand for accountability. Additionally, these institutions face

pressures to compete internationally, as they struggle to meet the demands of an ever-advancing technological age. Now more than ever, college students make critical decisions about their classes based upon interactions with faculty and their own learning expectations, which are evolving as quickly as the technologies they use. Born out of experimental education tactics, *For Students' Sake! Bold Solutions for the College Retention Crisis* explores the strategies and results of personalized learning. After 22 years of teaching college students, Carmen R. Allen realized that a large number of her students were failing, dropping the course, or simply disappearing. Her passion for student success pushed her to learn more about how to meet student needs, including early intervention tactics and personalized communication approaches, in order to create higher levels of student success. She experienced great success with her work and is
