this book, Tom Brokaw goes out into America, to tell through the stories of individual men and women the story of a generation, America's citizen heroes and heroines who came of age during the Great Depression and the Second World War and went on to build modern America. This generation was united not only by a common purpose, but also by common values - duty, honor, economy, courage, service, love of family and country, and, above all, responsibility for oneself. In this book, you will meet people whose everyday lives reveal how a generation persevered through war, and were trained by it, and then went on to create interesting and useful lives and the America we have today.

Basic Electronics Bernard Grob 1984 This book is for beginning students without any experience in electricity and electronics. The first chapter is on elementary electricity, the last chapters cover transistors, integrated circuits, and digital electronics. Between these two points, the topics progress through Ohm's law, series and parallel dc circuits, networks, meters, magnetism, ac circuits with inductance and capacitance, and the subject of resonance.
