Already a leader in technology, SFH now expands its first-ever treatment of document design into a fully illustrated section that explains document design as a process like writing itself. There's a thorough new chapter with full coverage of Writing for the Web and a portfolio chapter of four-color model documents. Coverage of research continues to set the standard for college projects with new material on designing research projects, evaluating sources, and working with online materials. helpful online materials to enhance their thinking and research. But the edition has not neglected more traditional elements of writing. Every chapter has been reworked to enhance clarity and to polish the notably friendly style of SFH. No
