Interactive Learning David G. Brown 2000
Interactive Learning is a rich collection of best practices in the use of instructional technology from 36 of America's most wired campuses. In 93 brief, informal, and practical vignettes, professors show how they transformed courses with technology, discuss how the technology affected teaching and learning, and distill important lessons learned. The accounts are written in lay language and are brimming with information and examples that will help anyone from the novice to the computer-savvy who is interested in classroom applications of technology.
