*Revolutionizing K-12 Blended Learning through the i<sup>2</sup>Flex Classroom Model* Avgerinou, Maria D. 2016-06-20 Blended learning has gained significant attention recently by educational leaders, practitioners, and researchers. i<sup>2</sup>Flex, a variation of blended learning, is based on the premise that certain non-interactive teaching activities, such as lecturing, can take place by students without teachers' direct involvement. Classroom time can then be used for educational activities that fully exploit teacher-student and student-student interactions, allowing for meaningful personalized feedback and scaffolding on demand. Revolutionizing K-12 Blended Learning through the i<sup>2</sup>Flex Classroom Model presents a well-rounded discussion on the i<sup>2</sup>Flex model, highlighting methods for K-12 course design, delivery, and evaluation in addition to teacher performance assessment in a blended i<sup>2</sup>Flex environment. Emphasizing new methods for improving the classroom and learning experience in addition to preparing students for higher education and careers, this publication is an essential reference source for pre-service and in-service teachers, researchers, administrators, and educational technology developers.

**Handbook of Research on Teacher Practices for Diverse Writing Instruction** Hodges, Tracey S. 2022-05-20 The art and practice of writing is complex and multidimensional; students often apply unique writing styles. As such, educators must apply focused teaching methods to nurture these unique forms of writing. Educators must stay up to date with the practices for diverse writing instruction in order to best engage with a diverse classroom. However, resources related to writing typically do not focus on the depth and breadth of writing, and there is a need for a resource that offers a comprehensive look at diverse writing instruction research. The Handbook of Research on Teacher Practices for Diverse Writing Instruction provides a rich discussion of the issues, perspectives, and methods for writing instruction currently in use, with an added lens focusing on diversity and equity. It provides unique coverage on the topic of writing instruction for practical implementation within the classroom setting. Covering topics such as student motivation, curriculum development, and content area instruction, this major reference work is an essential resource for preservice teachers, faculty and administration of K-12 and higher education, academic libraries, government officials, school boards, researchers, and academicians.

*Richard Prince* Richard Prince 2014 The works in this catalogue, which include such well-known groups as Jokes and Car Hoods, illustrate the extraordinary variety of techniques and media Richard Prince uses to grapple with American myths in commercials and everyday culture. The strategies underlying the work, such as the serialisation, the sequencing and the repetition of constant and variable elements, is elaborated on by the American author Paul Black. While Kerstin Stakemeier examines the economic and political context of Prince's work in her contribution by means of selected examples, Yilmaz Dziewior explains the concept of the exhibition in Bregenz in 2014. The artist himself also has his say in the catalogue with an essay in which he formulates his artistic thinking in a most informative way. Large-format illustrations of early works and in particular the new pieces realised for Bregenz, as well as a carefully compiled biography and bibliography, offer a comprehensive insight into the American artist's work, which has influenced contemporary art for decades.
