**A Field Guide to the Natural Communities of Michigan** Joshua G. Cohen 2015 Small enough to carry in a backpack, this comprehensive guide explores the many diverse natural communities of Michigan, providing detailed descriptions, distribution maps, photographs, lists of characteristic plants, suggested sites to visit, and a dichotomous key for aiding field identification. **A Guide to Forest Communities and Habitat Types of Central and Southern Wisconsin** John Kotar 1996  
**Wisconsin's Natural Communities** Randy Hoffman 2002-09-20 Cattails grow in a marsh, pitcher plants grow in a bog, jewelweed grows in a swamp, right? Do sandhill cranes live among sandy hills? Frogs live near lakes and ponds, but can they live on prairies, too? What is a pine barrens, an oak opening, a calcareous fen? Wisconsin's Natural Communities is an invitation to discover, explore, and understand Wisconsin's richly varied natural environment, from your backyard or neighborhood park to stunning public preserves. Part 1 of the book explains thirty-three distinct types of natural communities in Wisconsin—their characteristic

trees, beetles, fish, lichens, butterflies, reptiles, mammals, wildflowers—and the effects of geology, climate, and historical events on these habitats. Part 2 describes and maps fifty natural areas on public lands that are outstanding examples of these many different natural communities: Crex Meadows, Horicon Marsh, Black River Forest, Maribel Caves, Whitefish Dunes, the Blue Hills, Avoca Prairie, the Moquah Barrens and Chequamegon Bay, the Ridges Sanctuary, Cadiz Springs, Devil's Lake, and many others. Intended for anyone who has a love for the natural world, this book is also an excellent introduction for students. And, it provides landowners, public officials, and other stewards of our environment with the knowledge to recognize natural communities and manage them for future generations.

Province [of Minnesota]; fact sheets with information on community composition and structure, landscape setting, soils, and natural history; and ecological system summaries that highlight the ecological processes shaping terrestrial and palustrine vegetation in the province"--Preface
