Writing First with Readings Laurie G. Kirszner
2014-10-10 Best-selling authors and veteran college writing instructors Laurie Kirszner and Stephen Mandell believe that students learn to write best when they use their own writing as a starting point. In *Writing First with Readings: Paragraphs and Essays*, the authors take a simple yet effective approach to helping students improve their writing skills: visual writing prompts open every chapter and get students writing immediately. Then, throughout the chapter, students move between their own writing, writing models and instruction, and workbook-style mastery exercises so that they continually revise, rewrite, and improve their

own writing. It is this formula that makes writing instruction meaningful and accessible for students. Thoughtful chapters on academic writing and success, research, and critical reading, along with high-interest essays, round out this new edition, making it the perfect introduction to college writing.

Teaching a Lexis-based Academic Writing Course Lawrence J. Zwier 2006 *Teaching a Lexis-Based Academic Writing Course* is a companion to *Building an Academic Vocabulary*, which was written for students who need to develop college-level vocabulary skills. *Building Academic Vocabulary* (0-472-08589-1) helps students develop lexical precision as they work in such often-exercised modes as cause-effect, general description, description of processes, and comparison/contrast. *Teaching a Lexis-*

Based Academic Writing Course will help instructors use Building an Academic Vocabulary more effectively, but it can also be used as a companion to any writing text and by instructors who want their writing course to have more of a focus on vocabulary. Each chapter includes additional practice exercise and five additional quizzes on collocations and common phrases, related forms, and additional vocabulary. This resource provides instructors with a valuable tool for helping students develop precision and fluency in their academic writing.

The Essentials of Academic Writing Derek Soles 2005 Provides: thorough coverage of the most important phases of academic writing-- from planning and research through revising and proofreading; five carefully annotated academic essays by students and well-known authors as models of narrative, expository, and argumentative writing; and thirteen additional sample essays, both student and professional, and an engaging case study of a student

research paper.
