*Strategic Speed* Jocelyn Davis 2010-06-01 Only 30 percent of strategic initiatives are successfully executed. Of those that are, most CEOs view the process as too slow. What's going on? And how can you accelerate execution in your company? In *Strategic Speed*, the authors provide the answers. Start by understanding the barriers to execution: Employees don't grasp where an initiative is going. They don't adopt new behaviors. They're not committed to working together to achieve results. Most leaders try to speed things up by changing

processes or installing new technologies. But better processes and systems won't remove the barriers. Instead, you need to unleash three people factors—clarity (understanding the goal), unity (collaborating across work groups), and agility (adapting quickly). The authors explain how to unleash these factors by exercising four leadership abilities:

- Affirming strategies: Ensuring everyone knows the destination and wants to go there
- Driving initiatives: Accelerating projects called for by your strategy
- Managing climate: Controlling what it feels like to work in your team
- Cultivating experience: Harnessing employees' knowledge and expertise

Strategic Speed provides real-world examples—from companies as diverse as Tata Sky, Thermo Fisher Scientific, Ameriprise, and Fender Guitars—showing these practices in action. And it's packed with tools and assessments for diagnosing where your execution efforts are in trouble and choosing specific actions for accelerating results in your

firm.

It enables HR professionals to answer core business questions including how do I analyze future hiring demand? How do I assess what skills will be required in the future? How should I prioritize investments like training and development? How do I assess the supply of talent around the world? How do I identify the business drivers that impact workforce demand? It also covers the impact of artificial intelligence

(AI), automation and machine learning on the global workforce and how to deal with these implications. Whether you're a start-up, small business or a large corporate, this book will show you how to align people strategy with company strategy to ensure your organization maintains its competitive advantage.

*Accelerating Performance* Colin Price

2016-12-14 Transform your organization into a dynamic catalyst for success Accelerating Performance is not just another “warm and fuzzy” change management book—it's a practical, comprehensive, data-driven action plan for picking up the pace and achieving more. Co-written by one of the authors of Beyond Performance, this book draws on a combination of empirical research and decades of experience advising global companies to show you how to reduce time to value by building and changing momentum more quickly than your competitors. The META framework (short for Mobilize, Execute, and Transform with Agility) offers

advice for leading change at four levels: strategy, the organization, teams, and individuals. In addition to step-by-step guidance toward assessment, planning, and implementation, the book offers: A diagnostic tool for leaders, teams, and organizations to assess their starting place, and highlight the specific areas needed to improve the ability to accelerate performance. A detailed look at the factors proven to create drag—and drive—at each of the four levels: strategy, organizations, teams, and individuals. An exploration of the 39 differentiating actions that organizations can combine as dictated by their strategy and context into a winning recipe. A closer look at the practices of 23 “superaccelerators,” a global (and perhaps unexpected) mix of companies that have demonstrated a consistent ability to accelerate performance. A single taste of success is all it takes to spark change, but the hard work of following through requires constant vigilance—and a plan. Learn how to

capture that drive, bottle it, and use it to sustain motivation, inspiration, and achievement.

Deliver at the highest level, and then turn around and do even better next time.

Accelerating Performance gives leaders a step-by-step framework for taking action and transforming their organizations, teams, and even themselves—starting today.
