On Christendom's Far Shore James Larry Hood 2013-12-18 On Christendom's Far Shore describes and explains American society by first illuminating its foundational stones: the traditional western (Judeo-Christian) faith in God and the West's once common understanding of the natural order and the nature and destiny of man. It explores the biblical concepts of faith, paradox, tragedy and grace, time, gender relations, love, work, play, individual and communal responsibilities, freedom, and the Kingdom of Heaven. The book illustrates how these ideas and values underlie more specifically American values and American social and governmental patterns and structures, such as the pursuit of knowledge and wisdom, the creation of families and larger social groups and communities, the mentoring of future generations, and people's understanding of self-governance and how to relate to other nations. On Christendom's Far Shore depicts the present as a time of twilight with the United States caught up in a cataclysmic clash between a traditional understanding of man and of a God-centered universe and a post-modern, existential, man-centered, multicultural worldview that rejects the old values and structures and determinedly seeks a vast restructuring of the nation's social and political order and character.

Achebe the Orator Chinwe Okechukwu 2001-03-30 Taken together, Chinua Achebe's five novels encompass the entire social, historical, and political experiences of Nigeria, from precolonial times to the close of the 20th century. Central to these experiences is the clash of Igbo culture with the ways of the West. The novels show a society that has been fragmented and a people who are striving to reconstruct a world that they lost during their encounter with colonialism. Achebe has stated that his main purpose for writing is to reveal the truth about his people and their culture. This book examines his use of rhetoric to accomplish that objective. -- From product description.

Reclaiming the Strike Zone Victor Alexander Baltov 2012-09-18

America has steadily regressed from a Republic under the Sign of the Cross towards a mobocracy under the Sign of the Scorpion. Social responsibility and the ethics of conscience have vacated the Field of Dreams like a Baroid tater -- an all about me cult of celebrity has evolved. Reclaiming the Strike Zone traces the metaphorical cleat marks through forbidden history. The Inside Baseball version of the Soviet Socialist Paradise and Nazi Germany is pitched shekel free. Sub-systems of the American superstructure featuring education, entertainment, youth activities and family are explored in-depth. The search for something that has been lost -- the secret of the American Dream and

American Exceptionalism -- is pursued. All base paths lead to the Christian Church and Jewish Nation. Wise Christian philosophy has been Billy-Goated off the playing field -- secular humanism has taken The Hill. Karl Marx and Sigmund Freud have taken a turn at-bat and gone long. Red tide has been harnessed into Economic Determinism by the F&F Boys. The hidden ball trick has been pulled on the sheeple. Disciples of General Zod lack American patriotism. Time is of the essence to restore what has been taken -- its the bottom of the 9th with two away. DO IT AMERICAN and dont give up the ship are battle cries. Intellectual Millenials must step up to the plate and reclaim what their baby booming Spock baby parents baptized in Dewey waters booted. Identifying the proton pseudos and resetting is the task. Restoring sub-systems [especially education] while playing small ball is the answer. Truth and patriotic leadership are catalysts. A burning desire to be an American -- free and independent -- without getting JFKd is the secret. There is a happy ending -- it is certain. The Good News delivers that promise.
