An Introduction to Physical Science James T.

Shipman 2002-07-08 This text presents a survey of the physical sciences physics, chemistry, astronomy, meteorology, and geology for non-science majors. Topics are treated both descriptively and quantitatively, providing flexibility for instructors who wish to emphasize a highly descriptive approach, a highly quantitative approach, or any spectrum in between.

Math for Soil Scientists Mark S. Coyne 2006 This unique resource is written for students and practitioners in the field of soil science who must learn or review basic mathematical operations faced when studying or working with soils. Unlike other texts of its kind, *Math for Soil Scientists* explains the importance of each concept explored, discusses the theory behind each concept, and presents the method for solving each problem. Designed to cover all of the most common equations in the soil science field, from calculating particle size distribution to conducting simple hypothesis testing, this text

provides the reader with many opportunities for practice in working out sample problems of each required math concept. This easy-to-read text approaches every concept in a step-by-step fashion, allowing the reader to fully understand how to find the solution to each sample problem.

Profiles of American Colleges Barron's Educational Series 2010-07-01 The latest information on enrollments, tuition and fees, academic programs, campus environment, available financial aid, and much more make the 29th edition of *Profiles of American Colleges* America's most comprehensive and authoritative

source for college-bound high school students. Every accredited four-year college in the United States is profiled, and readers are directed to a brand-new Barron's Web site featuring a FREE ACCESS college search engine that presents exclusive on-line information to help students match their academic plans and aptitudes with the admission requirements and academic programs of each school. The book presents profiles of more than 1,650 colleges, each profile including details on:

- Admission requirements
- Library and computer facilities
- Admissions procedures for freshmen
- Campus safety and security
- Thumbnail descriptions of faculty
- Requirements for a degree
- Athletic facilities
- Extracurricular activities
- E-mail addresses
- College fax numbers and web sites
- Admissions Contacts

and more Schools are rated according to Barron's reliable competitiveness scale, which ranges from "Noncompetitive" to "Most Competitive." The book's tinted pages section presents an Index of College Majors that

lists all available major study programs at every school. Also profiled are excellent colleges in Canada and several other countries, as well as brief profiles of religious colleges, and American colleges based in foreign countries.
