A Study Guide for the Operator Certificate of Professional Competence (CPC) in Road Freight 2018 Clive Pidgeon 2018-01-03 A Study Guide for the Operator Certificate of Professional Competence (CPC) in Road Freight 2018 is a vital study guide that offers the thorough preparation needed to pass the tough CPC exams in the UK. It covers the examination method used by the Oxford, Cambridge and RSA (OCR) and the Chartered Institute of Logistics and Transport (CILT). This is the Level 3 standard qualification overseen by The Office of Qualifications and Examinations Regulation (OFQUAL) and the Welsh Assembly Government, which is required by any person wishing to operate vehicles over 3,500 kg, the maximum authorised mass for hire and reward, in the UK and internationally. A Study Guide for the Operator Certificate of Professional Competence (CPC) in Road Freight 2018 has been extensively revised to include all the new legislation. It covers the eight study sections that the directive requires: civil law; commercial law; social law; fiscal law; business; financial; management of the undertaking access to the market; technical standards and technical aspects of the operation road safety. It features many case studies, examples, diagrams and graphics. New to this edition: test questions after each section.

The new European motorcycle test Great Britain: Parliament: House of Commons: Transport Committee 2010-03-23 In April 2009 a new testing regime, based on the Second EU Driving Licence Directive, was introduced. Deadlines for implementation had not been met and when

the new test was finally introduced, it was met with intense criticism and safety concerns. The number of tests taken dropped dramatically in the first few months and the industry suggested that the new test regime would threaten many small businesses and jobs. The Committee was concerned to not only establish whether the test had gone wrong and how problems could be rectified but also to ensure lessons are learned before the implementation of the Third EU Driving Licence Directive. They concluded that they could not see why the Government failed to obtain derogation from certain speed requirements and that though many elements of the new regime were appropriate it was important to take into account the concerns expressed and consider what adjustments might be required. They also believe that training and instruction for the motorcycle test needs to develop and change to reflect the new test requirements. The off-road module of the test also needs to be amended to allow candidates to adapt their riding to reflect prevailing weather, road and other circumstances. The development of better awareness of motorcyclists among other road users is also crucial and should not be neglected. Though the Government exceeded what was necessary to comply with the EU directive the Committee believes they were right to do so. It is the development of Multi Purpose Test Sites for which justification was weak and implementation inept which represents the least effective element.

Driver CPC Driving Standards Agency 2010-09-24 This official guide from the Driving Standards Agency is specifically designed to help bus and coach drivers prepare for their initial Certificate of Professional Competence (CPC). It focuses on the syllabus of two new modules: case studies (part two of the CPC test) and the practical demonstration test (part four of the CPC test). This new edition has been updated to include additional information on periodic training and ecosafe driving. This official guide has been prepared in close consultation with a working group of industry experts and experienced PCV trainers from GoSkills, First Group, Arriva and East London Bus Group, so it is up-to-date with current industry thinking.
