School Counselors as Practitioners Judy A. Nelson  
2018-07-16 Designed for school counseling course work and as a reference for school district personnel, this text demystifies the roles and responsibilities of the school counselor and teaches students and practitioners how to perform, conduct, follow through, and carry out various roles and responsibilities required on the job. School Counselors as Practitioners conveys strategic, step-by-step processes and best practice recommendations, with emphasis on ethical and multicultural considerations. The 14 chapters in this textbook maintain, and are consistent with, the basis of school counselors' work in the school counseling core curriculum, responsive services, individual planning, and system support, and special attention is paid to

ASCA and CACREP standards. A companion website provides students with templates and handouts for on-the-job responsibilities, as well as quiz questions for every chapter.

**Stomp Out the Ants** Sally-Anne McCormack 2009

"Everyone gets ANTs (Automatic Negative Thoughts). They are annoying and can be hard to get rid of. Inside this book are strategies to spot the ANTs and how to deal with them!"--Back cover.

Don't Feed the ANTs Erin Bernardi 2015-07-13 Myra is a happy-go-lucky fourth-grader who discovers how automatic negative thoughts - or ANTs - can fill her with sadness and hopelessness. Ms Burke, the school counselor helps Myra understand how to stop feeding the ANTs and get back to being happy-go-lucky. Based upon existing "automatic negative thought" therapies, Myra's story is the first of several by

Erin Bernardi to focus on issues pertaining to elementary school children. The ANTs were illustrated to show children facial expressions and body language that may resonate with them, and therefore start a discussion about their own ANTs.

**Living With Ants** Sally-Anne McCormack 2012 Does your child become anxious often? Loses his/her temper for no reason? Cries or is sad more often than might be expected? Greater than one in ten children are reported to have a mental health issue. They are plagued by ANTs (Automatic Negative Thoughts). These insidious creatures crawl into their heads, tell them things that are not true (eg. everyone hates you, you're going to have a bad day, etc.), and the children feel powerless to stop listening to them... That's what it is like when you are "Living with ANTs". This book was written to help children understand the ANTs (Automatic Negative Thoughts) in their heads. It is intended that an adult read the book

with their child to explain how their thoughts can change the way they feel. Most people do not "think about their thinking" and many of us tend to look at a situation in the most negative way possible! This publication leads us to see that these negative feelings are not our fault, and we can work on changing them...
