Literacy, Power, and the Schooled Body Kerry Dixon 2010-11-15 What effects do space and time have on classroom management, discipline, and regulation? How do teachers' practices create schooled and literate students? To explore these questions, this book looks at early childhood classrooms, charting the shifts and continuities as four-year-old children begin preschool, move from preschool into primary school, and come to the end of the first phase of schooling at nine years. The literacy classroom is used as a specific site in which to examine how children's bodies are disciplined to become literate. This is not a book that theorizes space, time, discipline, bodies, and literacy in abstract ways. Rather, working from a Foucaultian premise that discipline is directed onto children's bodies, it moves from theory to practice. Photographs, lesson transcripts, interviews, and children's work show how teachers' practices are enacted on children's bodies in time and space. In this way, teachers are offered practical examples from which to think about their own classrooms and classroom practice, and to reflect on what works, why it works, and what can be changed.

The Healing Kitchen Sophia Young 2025-12-21 This is a powerful, layered story, and it sets the stage for a deeply emotional and transformative narrative. Framing the book as memoir-like—recounted from a fifty-year-old Molly looking back on a childhood full of small-scale violence, suppressed magic, and buried truths—gives the story both intimacy and weight. The author is building something mythic and deeply human: the story of a woman who reclaims herself, piece by piece, memory by memory—and with that reclamation, rediscovers the gifts that were always there. The novel is told from the point of view of Molly at age fifty, during a pivotal moment in her adult life—a spiritual emergency and a traumatic trigger—something that cracks open the shell around her long-suppressed psychic gifts. She begins to remember. Not just the facts of her childhood, but the layers: the patterns of emotional abuse, the denial of her reality, the psychic impressions and visions she had as a girl, and the moments she was gaslit into silence. Each chapter is a return—to an age, an incident, a person. The narrative slips between present-day Molly and her child self, a dual voice echoing across time.
