DVD & Video Guide 2005

Mick Martin 2004 Wondering what video to rent tonight? This bestselling, fact-packed guide is the only sourcebook you and your family will ever need. Mick Martin and Marsha Porter steer you toward the winners and warn you about the losers. DVD & Video Guide 2004 covers it all-more films than any other guide, plus your favorite serials, B-Westerns, made-for-TV movies, and old television programs! Each entry, conveniently alphabetized for easy access, includes a summary, fresh commentary, the director, major cast members, the year of release, and the MPAA rating, plus a reliable Martin and Porter rating-from Five Stars to Turkey-so you'll never get caught with a clunker again!

Writing Space J. David Bolter 1991 This book is a study of the computer as a new technology

for reading and writing -- a technology that may replace the printing press as our principal medium of symbolic communication. One of the main subjects of Writing Space is hypertext, a technique that allows scientists, scholars, and creative writers to construct texts that interact with the needs and desires of the reader. Bolter explores both the theory and practice of hypertext, demonstrating that the computer as hypertext represents a new stage in the long history of writing, one that has far-reaching implications in the fields of human and artificial intelligence, cognitive science, philosophy, semiotics, and literary theory. Through a masterful integration of introductory, historical, illustrative, and theoretical material as well as an accompanying diskette containing a sample of hypertextual writing, Bolter supports his claim that the

computer will carry literacy into a new age -- the age of electronic text that will emerge from the "age of print that is now passing." His reflections on literacy in contemporary culture lead him to a compelling conclusion: ironically, cultural literacy is becoming almost synonymous with computer literacy.

The Gentleman's Instant Genius Guide Tom Cutler 2011-09-22 Who has time

nowadays to put in the graft to succeed? And why bother, when the truly important things in life only take a quarter of an hour to master? Here, Tom Cutler proves that following the path to becoming disgustingly rich, stylish, intelligent, thin, happy, classy, successful and a legend in the bedroom need take no longer than it does to cut your toenails, or listen to The Archers. Learn how to become as popular as your dog. Which sports car suits your personality? How to work out the date of your death. Are you a genius? With Tom Cutler's help you will soon find inner perfection and hugely impress your family, friends and work colleagues. From the author of the brilliant *A Gentleman's Bedside Book*, this is a hilariously funny but deeply practical guide to self-improvement.

considers how writing practices, old and new, affect the ways we write, read, think, and looks at how writing is influenced by historical events, cultural values, and technological advances. This challenging reader examines transformations in reading and writing, from the oral traditions of the pre-print era to the hypertext of the digital age, to analyze the impact of these changes on our reading and writing practices. With its historical and cultural analysis perspectives, it has appeal for any instructor interested in having their students think critically about the changing nature of writing. The readings-which include ancient philosophy, personal essays, literary narratives, and accessible scholarly discussions all centered on the past, present, and future of writing-are intellectually ambitious and encourage active, critical reading. A pedagogical system of "Suggested Groupings" in the back of the text clusters the readings under specific themes

that explore the complex relationships between the selections. Innovative writing assignments let students experiment with different communicative forms and media. Numerous visual images emphasize visual literacy.
