Exemplary Programs in Introductory College Mathematics Susan S.

Lenker 1998 This handbook contains a collection of the winning entries in the first INPUT Competition, part of the INPUT (Innovative Programs Using Technology) Project. The INPUT Project was designed to improve instruction by recognizing and rewarding college instructors who rethought the mathematical content of their introductory mathematics courses with innovative uses of technology. The targeted introductory mathematics courses were developmental mathematics, precalculus, business mathematics, and introductory statistics.

Artificial Intelligence for STEM Education Research Xiaoming Zhai

2026-04-20 This open access volume explores the transformative use of Artificial Intelligence (AI) as innovative methodologies in STEM education research. Featuring contributions from leading experts, it presents a rich collection of chapters that examine how AI tools—such as adaptive learning systems, automatic scoring, explainable AI, and intelligent tutoring—can be applied to enhance educational outcomes. Designed for researchers, educators, and graduate students, the book provides in-depth insights into AI as a tool for cutting-edge research methods and its potential to revolutionize research practices. Through practical examples, case studies, and methodological details, it serves as an essential resource for those looking to push beyond conventional methods and embrace the possibilities offered by AI in educational research.
