Radiology in Global Health Daniel J. Mollura 2018-12-31 Exploring the question as to why more than half the world continues to have little or no access to medical imaging and radiology, this important second edition, fully revised and expanded, offers not only answers but practical solutions, providing new tools, ideas, and strategies for bringing vital radiology to low-resource areas. Based on RAD-AID's ten years of work (2008-2018) serving indigent communities around the world, the book's interdisciplinary approach offers the synthesis of business management, government policy formulation, clinical methods, and engineering in order to integrate economic development, technology innovation, clinical model planning, educational strategies, and public health measures. The gold-standard title in the field, *Radiology in Global Health*, 2nd Edition is intended for a broad audience, including physicians (especially radiologists and radiology residents), radiology technologists, radiology nurses, sonographers, hardware/software engineers, policy-makers, business leaders, researchers, and public health specialists at all levels who use or implement health care services for underserved populations. In addition, as health care providers use radiology in the process of clinical decision-making, this title is also designed for clinical physicians, nurses, nurse-practitioners, physician assistants, and paramedical personnel. Administrators and public health personnel will also be interested, as the planning of radiology services for health care systems at both the facility level and at the population level requires a clear understanding of the technological challenges and management opportunities.

Instructional Technology Theory in the Post-Pandemic Era Carbonara, David D. 2024-07-22 The COVID-19 Pandemic transformed nearly every aspect of daily life across the globe in just a few short years. Thankfully, we've made it a long way from the days of no contact, social distancing, masks, and general isolation. Still, many aspects of this time have continued into the present. This is particularly true regarding education, which saw a massive overhaul during that period. Remote learning and technology infused education were a necessity then, and may prove to be an invaluable improvement as we go forward. *Instructional Technology Theory in the Post-Pandemic Era* investigates the facets of incorporating technology and virtual spaces into education permanently. The experienced educators that compiled this book utilize their years of knowledge to bring to light the intricacies of adapting virtual education laboratories for the foreseeable future. They examine student performance metrics, detail teacher development practices, consider the social aspects of tech-infused education, and explore the implementation of new pedagogies for best results. Covering topics such as companionship in distance education, pandemic teaching experiences, and professional and teacher development, this book is a valuable resource for educators, pre-service teachers, administrators, policymakers, academicians, researchers, and more.

The Power of Resilience Peniel Mugo 2022-12-27 Individuals don't choose when, where, and in what circumstances to be born. They just find themselves there. It, therefore, calls for focus, patience, hard work, determination, and, above all, trust in God to get to the desired end. This book is about where, when, and under what circumstances this author was born and raised. It also informs about the Kenyan people and what Kenya can offer to the rest of the world. It also attempts to prepare new arrivals to the United States, especially those from developing countries on the challenges that they are likely to encounter.

Strategic Orientation and Performance Saleh Anyango Osore 2023-10-30 TOPICS IN THE BOOK
Influence of Entrepreneurial Orientation on Performance of Conventional and Islamic Banking in Kenya
Strategy Implementation and Organizational Performance: A Case Study of Kenya Medical Training College
Influence of Internal Factors on Strategy Implementation in Machakos County Government, Kenya

Distribution Models and Performance of Private Health Insurance Sector in Kenya
