**The A to Z of Australian and New Zealand Cinema** Albert Moran 2009-07-21 Whether it was Jane Campion's *The Piano*, Mel Gibson in *Mad Max*, Paul Hogan in *Crocodile Dundee*, or *The Lord of the Rings* saga, we have all experienced the cinema of Australia and New Zealand. This book is an introduction and guide to the film of Australia and New Zealand. With entries on many exceptional producers, directors, writers and actors, as well as the films indicated above and many others, this reference also presents the early pioneers, the film companies and government bodies, and much more in its hundreds of cross-referenced dictionary entries. Through a chronology that shows how far these cinemas have come in a short time and an introduction that presents them more broadly, a clear portrait of the two countries' motion pictures emerge. The bibliography is an excellent source for further reading.

Works cited embrace all aspects of Australian film considered as art, industry, and sociological phenomenon, except extremely technical aspects of filmmaking. Categories include film archives and libraries, production, super-8mm film, government and film, history and criticism, ethnographic film, biographies, and film criticism and reviews. **Historical Dictionary of Australian and New Zealand Cinema** Karina Aveyard 2017-12-26 Filmmakers have honed their skills and many have achieved critical and popular success at home and abroad, as have actors and other crew. American filmmakers and companies have found it cheaper to make films in Australia because wages and salaries are lower, tax rebates have been attractive and the expertise in most areas of filmmaking is comparable to that of anywhere in the world. At the same time, Australian audiences still enjoy watching Australian films, making some of them profitable, even if this is a small profit when considered in Hollywood terms. New Zealand filmmakers, cast and crew have shown that they are equal to the world's best in making films with international themes, while other films have shown that the world is interested in New Zealand narratives and settings. Increased support for Maori filmmakers and stories has had a significant impact on production levels and on the diversity of stories that now reach the screen. It has also helped create more viable career paths for those who continue to be based in their home country. This second edition of *Historical Dictionary of Australian and New Zealand Cinema* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on leading films as well as many directors, writers, actors and producers. It also covers early pioneers, film companies, genres and government bodies.
