**Education and Training in Biomedical Science** Sheri Scott 2024-09-23 Globally, biomedical science is a rapidly expanding discipline in relation to technological advances, scientific research and healthcare delivery. A degree in biomedical science offers the gateway to a diverse range of career pathways, primarily in healthcare service delivery, research and development in varied healthcare related disciplines (medical microbiology, clinical chemistry, haematology, cell pathology and genetics) as well as careers encompassing environmental, pharmaceutical, nutrition and forensic sectors and other areas such as teaching, communication and bioinformatics. As such it is fundamentally important that education providers deliver educational and training programmes which embed and promote the development of essential skills required when seeking employment in such varied sectors so that graduates are workforce-ready. The British Journal of Biomedical Science (Impact Factor of 4.6 and CiteScore of 5.8) is excited to present - 'Education and Training in Biomedical Science' a Special Issue showcasing the best practices in pedagogical approaches which have significantly impacted teaching, workplace training and assessment ensuring graduates have the knowledge and skills required for employment within the biomedical science sector. The Special Issue showcases the global

diversity of innovative educator and practitioner-led research and practice, performed across the entire breadth of the biomedical science sector and present advances in theory, methodology and application of embedding workforce skills and knowledge requirements into current education and development programs.

*Proceedings of the 2024 3rd International Conference on Economics, Smart Finance and Contemporary Trade (ESFCT 2024)* Kun Zhang 2024-10-19 This book is open access. About ESFCT 2024 2024 3rd International Conference on Economics, Smart Finance and Contemporary Trade ESFCT2022 has been successfully held on July 22-24, 2022 in Xi'an, China. ESFCT2023 has been held on July 28-30, 2023 in Dali, China. In the ever-evolving landscape of global economics, the integration of smart finance and the intricacies of contemporary trade practices play a pivotal role in shaping the future of economies around the world. The 3rd International Conference on Economics, Smart Finance, and Contemporary Trade (ESFCT 2024) serves as a premier forum for academics, researchers, professionals, and policymakers from various disciplines to engage in a comprehensive discussion on the latest trends, challenges, and

advancements in the field. ESFCT 2024 aims to foster a deeper understanding of the dynamic interplay between economic theories, the innovative application of smart financial instruments, and the evolving nature of global trade dynamics. Research Background: The landscape of global finance and trade has been undergoing substantial transformations, driven by technological advancements, shifts in geopolitical relations, and changing consumer behaviors. The emergence of smart finance, characterized by the application of blockchain, artificial intelligence, and big data analytics, has revolutionized the way financial services are delivered and consumed. Concurrently, contemporary trade practices are adapting to new realities, including the rise of e-commerce, changes in supply chain management, and the increasing importance of sustainability considerations. Amidst these shifts, understanding the economic implications of these trends is crucial for policymakers, businesses, and researchers alike. Research Status: Current research in the domain of economics, smart finance, and contemporary trade is vast and multifaceted, reflecting the complexity of the global economic system. Theories of economic growth and development continue to evolve, incorporating insights from behavioral economics, environmental economics, and the study of economic resilience. In the realm of smart finance, significant progress has been made in exploring the potential of technologies like blockchain for enhancing transparency, reducing fraud, and facilitating more efficient transactions. Similarly, research on contemporary trade practices is focusing on the impact of trade wars, the reconfiguration of global supply chains, and the role of international trade agreements in shaping economic outcomes. Research Objectives: The primary objectives of ESFCT 2024 are to: 1. Provide an interdisciplinary platform for sharing the latest research findings, innovative ideas, and best practices in the fields of economics, smart finance, and contemporary trade. 2. Foster collaboration among participants from academia, industry, and government to address the complex challenges facing the global economy. 3. Highlight the implications of recent technological advancements for financial

services, trade practices, and economic policy. 4. Explore the interconnections between economic theory, financial innovation, and trade dynamics, with a particular focus on sustainability and inclusion. 5. Encourage the development of forward-looking strategies that leverage the potential of smart finance and contemporary trade to promote economic growth and resilience.
