An Introduction to Political and Social Data Analysis (With R)

Thomas M. Holbrook

2024-09-02 An Introduction to

Political and Social Data

Analysis (With R) provides

students with an accessible

overview of practical data

analysis while also providing a

gentle introduction to R. By

starting with statistics first and

using just enough R code to

generate results, this text helps

students focus on learning how

to do data analysis while slowly

gaining confidence in using R

as they progress through the

material. This book is

structured around learning by

doing. Students can follow

along in each chapter by

reading about statistics and

their applications in R, and

then running the R code on

their own as they work through contemporary political science and social science examples.

Author Thomas M. Holbrook patiently explains each step in in the process, avoiding overly complicated jargon and commands. Exercises at the

end of chapters feature both conceptual and calculation-

based questions so students

can check their understanding of data analysis and practice

using R. At the end of the

semester, students can

confidently add skills in data

analysis with R to their

resumes.

Windsor* New material on the proposed Equal Pay Report Family and Medical Leave Manual for California Employers Richard J. Simmons

2022 "California employers are covered by state and federal laws that regulate family and medical leaves. These laws guarantee employees the right to take leaves to care for newborn children, adopted children, and seriously-ill family members. Employees can also take leaves needed due to their own serious health conditions, due to qualifying exigencies and to care for service members. The laws usually require employers to maintain health insurance benefits in effect, continue life and disability insurance, allow the use of vacation and sick leave benefits, and comply with numerous other rules. They regulate reinstatement, employee handbooks, employee notice, record-keeping, and posting requirements. They also establish serious sanctions and penalties. In this publication, Attorney Richard J. Simmons of the law firm of Sheppard, Mullin, Richter & Hampton LLP, guides employers through the complicated web of rules created by the laws. It

examines the extension of the CFRA to employers with five or more employees, key features of the state and federal laws, including the new regulations, provides sample medical certification forms, posters, and a fact sheet, as well as a drafting checklist for policies. It contains a sample leave of absence request form that identifies eligible employees and sample leave of absence policies."--
