International Social Work David Cox 2012-12-04 *International Social Work: Issues, Strategies, and Programs, Second Edition* draws together the practice wisdom emerging within the broad scope of international social work practice and its role in contributing to the international community's efforts in combating the major global social problems of poverty, conflict and postconflict reconstruction, the development of countries and disadvantaged populations, migration and displacement, and the needs of specific populations such as child soldiers and AIDS orphans. Utilizing an integrated perspectives approach incorporating global, human rights, ecological and social development perspectives, the *International Social Work, 2e* is designed to prepare social workers, human services professionals, development practitioners who desire to play significant roles in responding to modern global challenges that are critical to the well-being of people, communities, nations and ultimately of us all.

Economic Development in the Third World Michael P. Todaro 1981 *Liberalization in the Process of Economic Development* Lawrence B. Krause 2023-11-15 Economic growth in all developing countries is guided, and often accelerated, by generally intrusive policies implemented by governments intent on playing an active role in furthering development. As economies have grown and become more complex, however, even small market distortions are magnified, and the tendency is to rely more heavily on the market for continued growth. In this volume, leading experts in economic development examine the variety of issues that arise as governments in some of the newly industrializing countries of Southeast Asia, such as South Korea, Taiwan, and Singapore, grapple with this difficult process of liberalization. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1991.

Modern Economics □ **An Analytical Study, 20th Edition** Ahuja H.L. 2016 In its 20th edition, this trusted definitive text is a comprehensive treatise on modern economics. It discusses in detail microeconomics, macroeconomics, monetary theory and policy, international economics, public finance and fiscal policy and above all economics of growth and development. The book has been exhaustively revised to provide students an in-depth understanding of the fundamental concepts and is streamlined to focus on current topics and developments in the field.

Stanford-Berkeley Joint Center for African Studies Annual Conference Joint Center for African Studies. Conference 1987 *U.S. Development Aid--An Historic First* Samuel Hale Butterfield 2004-08-30 The first comprehensive account of U.S. development aid policies and implementation operations in Africa, Asia, and Latin America, this work is a unique contribution to world history and to the extensive literature on Third World development. Butterfield begins with the remarkable story of why, in 1949, President Truman surprised Americans with his unprecedented development aid policy. He then describes the major alterations in U.S. development aid strategy and operations from 1950 to 2000. Drawing upon his long experience both in Washington and in country aid missions, Butterfield puts a human face on the story by weaving real world vignettes into his narrative. The survey addresses the role of Congress, important program foundations established in the 1950s, creative initiatives of the 1960s, frustrated promises in Vietnam. It explores the Third World's unexpected population explosion; America's evolving technical assistance work in the core sectors such as agriculture, education, health, and administration; and initiatives to reach the rural poor and promote the development role of women. It also comments upon linkages between policy dialogue and financial aid to promote market-oriented policy reforms, Africa's lagging development, and the decline of U.S. development aid in the 1990s. Economic Development Michael P. Todaro 2006 Todaro and Smith believe that development economics should foster a student's ability to understand real problems faced by developing countries. Unlike other

texts, *Economic Development* introduces economic models within the context of countries and issues, so that students learn to analyze and engage in the ongoing policy debates. Praised for its even, balanced coverage, the text helps students to evaluate issues using the best available cross-sectional data, economic theory, and institutional and structural perspectives. Keeping pace with current data and events, the Ninth Edition includes the latest research in development as well as extensive country-specific examples of topics such as transition economics and urban policy. - Reorganization from four parts to three provides a more streamlined sequencing for economic development courses. - All new country case studies target pertinent issues, such as *Divergent Development: Pakistan and Bangladesh* and *Understanding a Development Miracle: China*. Thoroughly updated and revised comparison case studies provide the most current illustrations of policy and its outcomes. major development organizations. - New research on rural development economics and the green revolution in Chapter 9. - Extended coverage of non-governmental organizations and how they compare with government and private sectors in Chapter 11, *Political Economy and the Roles of Market*. - Chapter 14 takes a critical look at the World Bank and the burden of debt.

The State and Development in South Africa Isaac Khambule 2025-09-16 This book interrogates the nexus between the state and development in post-apartheid South Africa. It highlights current problems, and suggests ways of consolidating state capabilities, improving public institutions and enhancing governance and development outcomes. Framed around developmental state theory, the book argues that the role of the state in South Africa will be fundamental for addressing the triple challenges of unemployment, poverty, and inequality. There is a growing concern that South Africa is at a development impasse, with ongoing crises in energy, infrastructure, and unemployment. The chapters investigate the role of the post-apartheid state in pursuing development and navigating a neoliberal globalised society. The book explores state capacity in all spheres of government, the relationship between politics and bureaucracy, and the role of state-owned enterprises in the country's developmental aspirations. The book concludes by summarising the successes, challenges and lessons that have emerged over the course of the book; and anticipating future directions or possibilities for the state in South Africa's development impasse. Bringing together leading voices in the field, this book will be an essential read for researchers of African politics, political economy and development. The book is also relevant for policymakers, students and practitioners in social sciences.

Development Economics HL Ahuja A result of more than four decades of teaching experience, this book deals with the problems of economic growth, development and eradication of poverty and unemployment. The book also includes an analytical study of important issues of environment and sustainable development. The book not only explains the models and theories of economic growth but also critically evaluates their relevance to developing countries. A major highlight of discussion in the context is the exploration of the widely accepted Amartya Sen's Capability Approach to development.

Economic Development Michael P. Todaro 2020-03-09 *Economic Development*, the leading textbook in this field, provides your students with a complete and balanced introduction to the requisite theory, driving policy issues, and latest research. Todaro and Smith take a policy-oriented approach, presenting economic theory in the context of critical policy debates and country-specific case studies, to show how theory relates to the problems and prospects of developing countries. Rich Christians in an Age of Hunger Ronald J. Sider 2005-04-10 Do you want to make a true difference in the world? Dr. Ron Sider does. He has, since before he first published *Rich Christians in an Age of Hunger* in 1978. Despite a dramatic reduction in world hunger since then, 34,000 children still die daily of starvation and preventable disease, and 1.3

billion people, worldwide, remain in abject poverty. So, the professor of theology went back to re-examine the issues by twenty-first century standards. Finding that Conservatives blame morally reprehensible individual choices, and Liberals blame constrictive social and economic policy, Dr. Sider finds himself agreeing with both sides. In this new look at an age-old problem, he offers not only a detailed explanation of the causes, but also a comprehensive series of practical solutions, in the hopes that Christians like him will choose to make a difference.

Economic Development in Asia John Malcolm Dowling 2004 **ECONOMIC DEVELOPMENT IN ASIA** explores factors that influence economic growth and development particularly from an Asian development perspective. Grounded firmly on theoretical foundations, it showcases the richness and variety of the Asian development experience through extensive coverage of individual country case studies, institutional developments, and challenges facing policy-makers in the region as well as in-depth discussions of existing empirical evidence. This book is specially tailored to meet the needs of social science students studying economic development in Asia. University students, educators and government policy makers will find the book particularly useful for understanding growth and development trends in the context of a rapidly globalizing world. With the rising tide of interest in Asian economies, the book will prove to be an invaluable for anyone seeking to better understand the process of growth and economic development in the region.
