Haitian Epistemology Paul C. Mocombe 2019-06-26 This work explores the philosophical basis for the author's theory of phenomenological structuralism. The text is intended for scholars, educators, and students working in the fields of Haitian studies, philosophy, and sociological theory, and gives a hermeneutical approach to

understanding and resolving the structure/agency problematic of the social sciences.

work explores the concept of structural reproduction and differentiation through the origins of, and basis for, Paul C. Mocombe's Mocombeian Strategy (2005) and Reading Room Curriculum, published as Mocombe's Reading Room Series (2007). It highlights how black American practical consciousness and the academic achievement gap are

a product of capitalist forces, relations of production, and their ideological apparatuses. As such, it is argued here that, to resolve the gap, black Americans should be treated as immigrant students against their structurally differentiated identities.

Alternative to Practical Physics ? a Wonderful Guild to Preparing for Lower Leve

Ezinna Efurumibe 2012-12-28

Alternative to practical Physics is a form of hypothetical experiment performed and described with the aid of diagrams. With the readings presented in diagrams, the student is required to deduce such readings using scales and tabulate them for further

deductions. The writing of this book was inspired by the fact that students after carrying out their practicals in the Physics laboratory go into the examination hall to meet alternative to practical questions. Many of the students that enter the University to read science related courses did not have the opportunity to write alternative to practical examination. As such many of them are thrown off balance when they see such questions in the examination hall. The aim of writing this book is to guide students towards better preparation to writing laboratory Physics examinations. The approach adopted in writing this book is such that the students understand the concept being treated through "question and answer". The students are expected to attempt the questions first (possibly by making use of the work sheets provided) before looking up the answers/solutions in the rare pages of this text. This will give them better comprehension of

the concept treated.
