The Political Science Student Writer's Manual and Reader's Guide Gregory M. Scott

2016-09-22 The Political Science Student Writer's Manual and Reader's Guide is a practical guide to research, reading, and writing in political science. The Political Science Student Writer's Manual and Reader's Guide, Eighth Edition, is a set of instructions and exercises that sequentially develop citizenship, academic, and professional skills while providing students with knowledge about a wide range of political and governmental concepts, phenomena, and information sources. It begins by teaching beginning students to engage newspapers and other political media sources critically and analytically. It focuses on the crafts of writing

and scholarship by providing the basics of grammar, style, formats and source citation, and then introduces students to a variety of rich information resources including the Congressional Record, Federal Register, and the Library of Congress. Students actively apply their knowledge and skills by corresponding with their representatives and commenting on pending government regulations. Part 1 concludes with campaign management, policy analysis, legislation assessment, and similar exercises that develop student skilled-observation proficiency. Part 2 prepares students to research, read, write, review, and critique political science scholarship. Finally, Part 3 teaches advanced students how to investigate public opinion; analyze domestic and international public policies; author amicus briefs; and participate in the universal community that deliberates the continuing rich tradition of political philosophy.

Writing For Academic Purpose Eny Maulita Purnama Sari, S.Pd.I., M.Pd. This handout can be one of instructional textbooks used in the teaching of writing of English in Indonesia. It aims to provide a framework for teaching and learning English based on blended learning. All three chapters allow the students to practice academic writing by blended learning in e-learning system which help them to develop their academic writing skills. By having this skill, they can construct and establish academic writing correctly. It also enables them to study genre autonomously. The strengths of this handout such as effectiveness of using blended learning in the writing for academic subject, autonomous learning, and practice make a better academic writing. Then, this handout was developed based on the students' need. In this handout, students not only found genre but also found characteristics, ways, and the rules of

language in academic writing. Here, the writers would like to thanks to validators and students who give inputs and suggestions in improving the process of developing materials and models. *Electronic Journal of Business Research Methods*
