**Interwoven Wild** Don Gayton 2007 *Interwoven Wild: An Ecologist Loose In the Garden* begins with an intimate look at Don Gayton in his BC garden with his dog Spud. Striking a series of premises - the first one being that gardening is essentially an irrational act - he logically and humorously begins to unravel the work and rituals of gardening. Engaging the reader with real gardening experiences, Gayton takes us on the microscopic steps of a gardening season and his interest in ecological succession. While commenting on the inter-reliance of species,

types of soil, why weeds invade, how foreign plants appear, insects, disease and frost, he also speculates on gardeners -- their needs to landscape, to purchase specialized tools, to use chemicals, to emotionally bond with trees, shrubs, flowers and vegetables. The "back story" of *Interwoven Wild* is much more universal. In it Gayton uses his experiences as a working field ecologist to place the garden in the larger context of our present natural world. By interlocking artists such as Monet and Caravaggio; writers such as Walt Whitman, Thoreau, Emily Dickenson, and Ann Dowden; park designer Frederick Law Olmstead, and landscape architect Christopher Alexander, Gayton reminds us that the garden has long held sway in the creative consciousness. His brief excursions into history, whether tracing the

apple back to Kazakhstan, explaining how the tulip made its way from Turkey to Holland, or how the industrialist Baylock's introduction of a smuggled Asian cherry tree destroyed the BC cherry orchards fascinate as well as instruct. For Gayton, the garden is a primordial human urge -- a gift, celebration, and revelation buried in human psyche, marked in our collective mythologies -- a kind of magical glue binding world culture, science and economics.

Broadens the concept of machine safety by using a positive, in-depth approach. Widely useful for teaching safe machinery operation to youth & adult readers. This book was, to our knowledge, the first major agricultural machinery safety text

ever published. **Remembering** John McMillan 2025-05-22 John McMillan shares his life story with sincere honesty - every humorous and heartbreaking moment. He was raised on a small farm in southwestern Quebec, the only son of a fourth-generation farmer. His early memories include details, anecdotes, and experiences of family and farm life in the 1950s, including games, holiday

activities, and social interactions associated with rural living. Entering his teenage years, his coming-of-age stories detail his awkwardness and amusing dating experiences. Deciding to forego becoming a farmer, John graduates from university with a degree in Mechanical Engineering. As an eighteen-year-old, a chance encounter changes his life forever when he meets a sixteen-year-old girl with an infectious smile, Kathryn Magnussen. Stories of their courtship and subsequent marriage illustrate his struggle to come to terms with falling in love and validating her compatibility as a potential wife, often resulting in funny or embarrassing situations. Adjusting to married life and starting a family provides a profoundly personal, often comical look into love, relationships, and fatherhood. As their family grows, their interests expand, introducing a new dynamic. Dog training, quilting, and auction attendance are hobbies that provide amusing anecdotes and lively discussions between husband and wife. As

the couple plans for retirement, they embark on a series of home renovations. The first results in mayhem, reminiscent of a comedy routine, including a plumber falling through the ceiling into the dining room and a worker taking progress payments and disappearing to Europe. John describes the effects of job demotions and company reorganizations on family life, and as retirement draws near, he is confronted with the unexpected, devastating loss of his wife. His memories provide a window into his exploits and escapades as he navigates the roller coaster ride of life, from the amusing and entertaining to the more serious and deeply moving.
