BSA 'Service Sheets' Master Catalogue for All Models

1945 to 1967 Floyd Clymer
2021-09-17 More than 550
illustrations and charts, size
8.25x10.75 inches. In 1945,
after the war had ended, BSA
resumed production of their
civilian line of motorcycles.
However, they continued their
pre-war practice of publishing
repair, overhaul and technical
information in the form of
individual 'Service Sheets'. It
should be noted that BSA never
intended that these service
sheets would be distributed to

the general public, they were
'dealer only' publications and
the print quality was at times
somewhat questionable. It was
not until the early 1960's that
BSA eventually started
publishing model specific
workshop manuals that were
available to the general public.
Consequently, these 'Service
Sheets' were the only
publications available for the
maintenance and repair of BSA
models that were
manufactured through the mid
1960's. The most complete
compilation of the 1945 and
onwards service sheets was
issued by BSA in the form of a
'dealer only' ringbinder that
contained 166 individual
service sheets (516 pgs) for the
entire range of 1945 thru 1967
motorcycles. It is extremely
difficult to find. It is this ring-
bound publication that was
used to create this 'Service
Sheets Master Catalogue'. It
includes every service sheet
issued/updated by BSA from

1945 until the Service Sheet program was discontinued in the mid 1960's, models covered are as follows: A7 & A10 1947-62 B31-B32-B33 and B34 1945-60 (Inc. Gold Star & competition models) C10-C10L-C11-C11G and C12 1945-58 C15-C15T-C15S-C15SS and B40 1958-67 D1-D3-D5 and D7 (Bantam) 1948-66 M20-M21 and M33 1945-63 Dandy 1956-62 At some point in the 1930's, BSA adopted the practice of identifying their various model types by 'groups' and the models manufactured from 1945 through the mid 1960's were in Groups A, B, C, D and M. The service sheets that were associated to a particular group were identified numerically and, while there were some exceptions due to overlapping data between models, in general terms the numbers relate to a particular model group. They are as follows: The 200 series of service sheets were applicable to Group A models, the 300 series to Group B, the 400 series to Group C, the 500 series to

Group D and the 600 series to Group M. In addition, there were a 700 series applicable to mechanical maintenance and an 800 series for electronic service and wiring diagrams. Both the 700 and 800 series of service sheets contained information that was not model specific but was applicable across multiple model groups. Finally, there were a 900 series for the BSA Dandy and a 1000 series for the BSA Sunbeam and Triumph Tigress scooter. The 1000 series sheets were published under the generic title, 'Scooter Service Sheet'. These sheets did not display either company logo and they were never intended to be included in the ring-bound dealer album. Unfortunately, as these service sheets were issued individually and at random times, the numbering sequence within any group is, at times, illogical and not necessarily consecutive. Consequently, owners of BSA motorcycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of

reprints that have recently flooded the online marketplace. Many of the reprints found on internet websites are from 'bedroom sellers' at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality comb-bound photocopies that are scanned and printed complete with greasy pages and thumbprints and are deceptively described as 'pre-owned', 'used' or even 'refurbished'! In addition, they are often advertised for the incorrect series and/or model years of motorcycles.

BSA B31 - B32 - B33 - B34 'Service Sheets' 1945-1960 for All Pre-Unit Rigid, Spring Frame and Swing Arm Models Floyd Clymer 2021-07-28 194 pages, and more than 240 illustrations and charts, size 8.25 x 10.75 inches. In 1945, after the war had ended, BSA resumed production of their civilian line of motorcycles. However, they continued their pre-war practice of publishing repair, overhaul and technical

information in the form of individual 'Service Sheets'. These sheets were 'dealer only' publications and, as such, the print quality was at times somewhat questionable. It was not until the early 1960's that BSA eventually started publishing model specific workshop manuals that were available to the general public. Consequently, these 'Service Sheets' were the only publications available for the maintenance and repair of BSA models that were manufactured through the early 1960's. At some point in the 1930's, BSA adopted the practice of identifying their various model types by 'groups' and the models manufactured from 1945 through the mid 1960's were in Groups A, B, C, D and M. The service sheets that were associated to a particular group were identified numerically and, while there were some exceptions due to overlapping data between models, in general terms the numbers relate to a particular model group. They are as follows: The

200 series of service sheets were applicable to Group A models, the 300 series to Group B, the 400 series to Group C, the 500 series to Group D and the 600 series to Group M. In addition, there were a 700 series applicable to mechanical maintenance and an 800 series for electronic service and wiring diagrams. Both the 700 and 800 series of service sheets contained information that was not model specific but was applicable across multiple model groups. Unfortunately, as these service sheets were issued individually and at random times, the numbering sequence within any group is, at times, illogical and not necessarily consecutive. Consequently, assembling those individual sheets into a publication that serves as a model specific workshop manual is a somewhat difficult task and owners of BSA motorcycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of reprints that have recently flooded the on-line

marketplace. Many of the reprints found on internet websites are from 'bedroom sellers' at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality comb-bound photocopies that are scanned and printed complete with greasy pages and thumbprints and, as such, are deceptively described as 'pre-owned', 'used' or even 'refurbished'! In addition, they are often advertised for the incorrect series and/or model years of motorcycles. The most complete compilation of the 1945 and onwards service sheets was issued by BSA in the form of a 'dealer only' ring binder that contained all of the individual service sheets totaling to almost 500 pages, it is extremely scarce and difficult to find. This manual contains 59 service sheets (190 pages) extracted from that 'dealer only' publication, which cover the 1945 to 1960 pre-unit, rigid, plunger and swing arm B31, B32, B33 and B34 plus Gold Star and Competition

models. Please note that service sheets other than those in the 300 series that are included in this publication may also contain data that is applicable to 'other' model groups, as that was the original intention. For additional information the reader is directed to 'The Book of the BSA 250cc, 350cc, 500cc & 600cc OHV & SV singles 1945 to 1959' (ISBN 9781588502292) which covers the B31, B32, B33, B34, C10, C11, C11DL, M20, M21 & M33 models. For later models see 'The Book of the BSA OHV Singles 350cc & 500cc 1955-1967' (ISBN 9781588501561) which covers the B31, B32, B33, B34 & Star B40 & SS90. *BSA A50 & A65 Series Owners Workshop Manual* Mark Reynolds 1974
BSA C10-C10L-C11-C11g-C12 'Service Sheets' 1945-1958 for All Pre-Unit S.V. and O.H.V. Rigid, Spring Frame and Swing Arm Models Floyd Clymer 2021-08-11 222 pages, and more than 250 illustrations and

charts, size 8.25 x 10.75 inches. In 1945, after the war had ended, BSA resumed production of their civilian line of motorcycles. However, they continued their pre-war practice of publishing repair, overhaul and technical information in the form of individual 'Service Sheets'. lombok.com lies a diverse collection that spans genres, catering to the voracious appetite of every reader. From classic novels that have withstood the test of time to contemporary page-turners, the library pulsates with life. The Bsa M33 Workshop Manual of content is evident, offering a dynamic range of PDF eBooks that oscillate between profound narratives and quick literary escapes.

One of the defining features of Bsa M33 Workshop Manual is the orchestration of genres, creating a symphony of reading choices. As you navigate through the Bsa M33 Workshop Manual, you will encounter the perplexity of options — from the structured complexity of science fiction to the rhythmic simplicity of romance. This diversity ensures that every reader, irrespective of their literary taste, finds Bsa M33 Workshop Manual within the digital shelves.

In the realm of digital

literature, burstiness is not just about variety but also the joy of discovery. Bsa M33 Workshop Manual excels in this dance of discoveries. Regular updates ensure that the content landscape is ever-changing, introducing readers to new authors, genres, and perspectives. The unpredictable flow of literary treasures mirrors the burstiness that defines human expression.

An aesthetically pleasing and user-friendly interface serves as the canvas upon which Bsa M33 Workshop Manual paints its literary masterpiece. The website's design is a testament to the thoughtful curation of content, offering an experience that is both visually appealing and functionally intuitive. The bursts of color and images harmonize with the perplexity of literary choices, creating a seamless journey for every visitor.

The download process on Bsa M33 Workshop Manual is a symphony of efficiency. The
