Writing First with Readings

Laurie G. Kirszner 2011-12-28 Best-selling authors and veteran college writing instructors Laurie Kirszner and Stephen Mandell believe that students learn to write best when they use their own writing as a starting point. In *Writing First with Readings: Practice in Context*, designed for the paragraph to essay course, Kirszner and Mandell take seriously the ideas and expressive abilities of developmental students, as

well as their need to learn the rules of writing and grammar. Visual writing prompts that open every chapter get students writing immediately. By moving frequently between their own writing, writing models and instruction, and workbook-style mastery exercises, students get constant reinforcement of the skills they are learning. Thoughtful chapters on college success, research, and critical reading, along with high-interest essays, round out the text, making it the perfect introduction to college writing. Read the preface.

Custom Guide to Writing
2005

The Write Start with Readings Gayle Feng-Checkett 2005 Clear and straightforward, *The Write Start with Readings: Paragraphs to Essays* is a workbook designed to build writing, revision, and critical thinking skills by getting

readers writing from the start. The text models the entire writing process, from prewriting to proofreading, with a model paragraph, and extends the writing process model to writing the introductory, body, and conclusion paragraphs of an essay. It then continues instruction in the various modes of development, teaching readers to write paragraphs and essays in each mode. Provides ample practice in applying the techniques and thinking skills. Also included are sample student and professional essays to encourage critical thinking and discussion. A Writer's Resource appendix provides opportunities for students to work on targeted skills in grammar, punctuation, and ESL concerns. For those interested in improving basic writing skills.

The Longman Writer Judith Nadell 2005-04 One of the most successful writing texts on the market, this "all-in-one" rhetoric and reader contains everything students need for

courses in freshman composition. Created by the authors of the best-selling Longman Reader, the text draws on decades of teaching experience to integrate the best of the "product" and "process" approaches to writing. Its particular strengths include an emphasis on the reading-writing connection, a focus on invention and revision, more attention to the fact that patterns blend in actual writing, and an abundance of class-tested activities and assignments-more than 350 in all.

The Broadview Guide to Writing - Sixth Edition Don LePan 2015-06-11 Increasingly, writing handbooks are seen as over-produced and overpriced. One stands out: The Broadview Guide to Writing is published in an elegant but simple format, and sells for roughly half the price of its fancier-looking competitors. For the sixth edition the coverage of MLA, APA, Chicago, and CSE styles of documentation has been substantially expanded as well as updated. Also expanded is

coverage of academic argument; of writing and critical thinking; of writing about literature, of paragraphing; of how to integrate quoted material into one's own work; of balance and parallelism; and of issues of gender, race, religion etc. in writing. The chapter "Seeing and Meaning: Reading (and Writing About) Visual Images" is entirely new. The online materials—including the selection of interactive exercises—have also been revised considerably.

The Brief Handbook Laurie G. Kirszner 2004 Presents a concise handbook of strategies for successfully completing a composition course and includes information on essays and paragraphs, research papers, grammar, spelling, and sentence structure.

Focus on Writing Laurie G. Kirszner 2011-01-31 Focus on Writing: Paragraphs and Essays is a clear, inviting text that engages students visually, demonstrates concepts with color and highlighting, and

offers students the support and coverage they need to write well in college. Focus on Writing offers the unique self-assessment tool TEST (Topic sentence, Evidence, Summary statement, and Transitions), which works clearly and simply to motivate students and empowers them to become capable writers and self-editors. In this revision, best-selling authors Laurie Kirszner and Stephen Mandell provide more support for moving from paragraph to essay, more step-by-step coverage of the writing process, and more diverse examples, exercises, and models, making the text both student-friendly and thorough. **A Guide to Study Skills and Careers in Criminal Justice and Public Security** Frank Schmallegger 2015-12-07 "...I feel it is an excellent supplement to textbooks that discuss process, concepts, theories and all elements of the criminal justice system. This book would only improve student chances of success."

—Terry Campbell, Kaplan University A Guide to Study
