WHO Report on the Global Tobacco Epidemic, 2013 World Health Organization 2013 "The continued success in global tobacco control is detailed in this year's WHO Report on the Global Tobacco Epidemic, 2013. The fourth in the series, this year's report presents the status of the MPOWER measures, with country-specific data updated and aggregated through 2012. In addition, the report provides a special focus on legislation to ban tobacco advertising, promotion and sponsorship (TAPS) in WHO Member States and an in-depth analyses of TAPS bans were performed, allowing for a more detailed understanding of progress and future challenges in this area."--Website summary.

Trade Policy Review - Honduras World Trade Organization 2016-11-03

Each Trade Policy Review consists of three parts: a report by the government under review, a report written independently by the WTO Secretariat, and the concluding remarks by the chair of the Trade Policy Review Body. A highlights section provides an overview of key trade facts. 15 to 20 new review titles are published each year. The reviews consist of detailed chapters examining the trade policies and practices of the member and describing trade policy-making institutions and the macroeconomic situation; these chapters are preceded by the Secretariat's Summary Observations, which summarize the report and presents the Secretariat's perspective on the member's trade policies. The Secretariat report and the member's policy statement are published after the review meeting, along with the minutes of the meeting and the text of the Chairperson's Concluding Remarks.

Practical Process Validation Mark Allen Durivage 2016-07-14 For the past decade, process validation issues ranked within the top six of Food and Drug Administration (FDA) form 483 observation findings issued each year. This poses a substantial problem for the medical device industry and is the reason why the authors wanted to write this book. The authors will share their collective knowledge: to help organizations improve patient safety and increase profitability while maintaining a state of compliance with regulations and standards. The intent of this book is to provide manufacturing quality professionals working in virtually any industry a quick, convenient, and comprehensive guide to properly conduct process validations that meet regulatory and certification requirements. It will aid quality technicians, engineers, managers, and others that need to plan, conduct, and monitor validation activities.

Trade Policy Review - El Salvador World Trade Organization 2017-09 Trade Policy Reviews are an exercise, mandated in the WTO agreements, in which member countries' trade and related policies are examined and evaluated at regular intervals. Significant developments that may have an impact on the global trading system are also monitored. All WTO members are subject to review, with the frequency of review depending on the country's size.

ISO 9001:2008 for Small Businesses Ray Tricker 2014-01-21 Small businesses face many challenges today, including the increasing demand by larger companies for ISO compliance. Compliance is a challenging task for any organisation and can often be time consuming and costly, particularly for small businesses who are unlikely to have quality assurance experts on the payroll. However, it is still possible to achieve compliance without the need for expensive consultancy or training that takes you out of the office! Ray Tricker has already guided hundreds of businesses through the challenge and this, the 5th edition of his life-saving ISO guide, has been rewritten and refined following 5 years' field use of working with the standard. The one area that an organisation (particularly a small business) always wants to know is 'how much is it going to cost to implement and operate a QMS compliant with ISO 9001:2008 - and is it going to be worth the trouble?!' Due to popular demand, Edition 5 now includes a brand new chapter on the cost of implementing ISO 9001:2008. This edition provides: Relevant examples that put the concepts and requirements of the standard into a real-life context Down to earth explanations to help you determine what you need to work in compliance with and/or achieve certification to ISO 9001:2008 An example of a complete, generic, Quality Management System consisting of a Quality Manual plus a whole host of Quality Processes, Quality Procedures and Work Instructions Access to a free, software copy of this generic QMS files (available from the author) to give you a starting-point from which to develop your own documentation. ISO 9001:2008 is the most widely followed quality management standard and the rewards can be great, opening up new business opportunities, as well as bringing real improvements to your processes and outputs.
