Labor and Employment Law Patrick J. Cihon 1988 This book is designed to give undergraduate and graduate business students a grasp of labor and employment law in its totality. Among the topics examined

are the National Labor Relations Act, contract negotiations, strikes, unfair labor practices, grievances, OSHA, discrimination charges, wrongful termination suits, and job safety.

Common Core for the Not-So-Common Learner, Grades 6-12

Andrea Honigsfeld 2013-07-30 New hope for our students who struggle most Under the best of circumstances meeting the Common Core can be a challenge. But if you're a teacher of academically and linguistically diverse students—and who isn't these days—then that "challenge" may sometimes feel more like a "fantasy." Finally, here are two expert educators who are brave enough, knowledgeable enough, and grounded enough to tackle this issue. Armed with this resource's advice, tools, and strategies, you'll Better understand the 32 ELA anchor standards Learn more about the specific skills "uncommon learners" need to master them Discover new research-based teaching strategies aligned to each standard

Psychological Science Catherine A. Sanderson 2023-04-27

Psychological Science: The Curious Mind, by award-winning authors and professors Catherine A. Sanderson and Karen Huffman, introduces 21st-century, digital-native students to the fascinating field of psychology. This new program emphasizes the importance of developing scientific literacy and an understanding of research and research methods. The program uses an inviting why-focused framework that taps into students' natural curiosity, incorporating active learning and real-life application to engage students. Psychological Science: The Curious Mind embraces the guidelines released by the American Psychological Association (APA)'s Introductory Psychology Initiative (IPI) in 2021. It provides an excellent framework for instructors who want to implement those guidelines in their Introductory Psychology courses, and it provides students with the content and motivation to achieve the course's ultimate outcome: an enduring, foundational understanding of psychological

science.

Handbook of Accessible Achievement Tests for All Students

Stephen N. Elliott 2011-04-28 The Handbook of Accessible Achievement Tests for All Students: Bridging the Gaps Between Research, Practice, and Policy presents a wealth of evidence-based solutions designed to

move the assessment field beyond "universal" standards and policies toward practices that enhance learning and testing outcomes. Drawing on an extensive research and theoretical base as well as emerging areas of interest, the volume focuses on major policy concerns, instructional considerations, and test design issues, including: The IEP team's role in sound assessment. The relationships among opportunity to learn, assessment, and learning outcomes. Innovations in computerized testing and the "6D" framework for standard setting. Legal issues in the assessment of special populations. Guidelines for linguistically accessible assessments. Evidence-based methods for making item modifications that increase the validity of inferences from test scores. Strategies for writing clearer test items. Methods for including student input in assessment design. Suggestions for better measurement and tests that are more inclusive. This Handbook is an essential reference for researchers, practitioners, and graduate students in education and allied disciplines, including child and school psychology, social work, special education, learning and measurement, and education policy.

This affordable resource also offers hundreds of practice questions, following the same organization as the review text, and contains special sections on the exam structure, studying and test-taking tips, and information to help international students and graduate nurses pass the NCLEX.

Real World Psychology Catherine A. Sanderson 2019-12-24 Real World Psychology balances comprehensive coverage of the key concepts in introductory psychology with a concise presentation style and engages students with current and interesting research that explores these concepts in real-life contexts. Real World Psychology features the incomparable author team of Karen Huffman (Palomar College) and Catherine Sanderson (Amherst College) who create an outstanding text that is appealing to students and instructors at a wide range of academic institutions. The new edition has been thoroughly updated and features a new focus on Scientific Thinking and Practical Applications underscoring the fact that connecting the principles of psychological science to everyday life is critical to student engagement, and ultimately key to their success - not only in the introductory psychology course, but in whatever their chosen field of study and in everyday life. Students will leave the course with an appreciation of how a basic, yet scientific understanding of human behavior can benefit them in their studies, in their personal lives, and in their professional endeavors.
