Teaching Secondary and Middle School

Mathematics Daniel J. Brahier 2005 Teaching

Secondary and Middle School Mathematics

combines up-to-date technology and research

with a vibrant writing style to help teachers

grasp curriculum, teaching, and assessment

issues as they relate to secondary and middle

school mathematics. Designed for pre-service or

in-service teachers, the second edition presents

concise, current, and meaningful descriptions of

what it takes to be an effective teacher of

mathematics. This extensively revised, practical

resource offers a balance of theory and practice,

including a wealth of examples and descriptions

of classroom situations to assist students in

visualizing mathematics instruction in the

classroom. Each chapter contains specific

outcomes for the reader, a glossary of relevant

terms, several discussion questions and an

extensive bibliography that contains references

and suggested readings. Appendices include a

descriptive list of recommended Internet Web

sites on mathematics education and two case

studies for further discussion. New To This

Edition! A new chapter (Chapter 7) examines

four major content areas of the secondary and

middle school curriculum--algebra, geometry,

data analysis and probability, and discrete mathematics--and the teaching methodology and NCTM Standards specific to each area. A new chapter (Chapter 10) devoted to the topic of equity discusses special needs students, gender equity, and ethnic/cultural differences. "How Would You React?" scenarios have been added in each chapter which allow students (and professors) to explore various teaching and learning issues and ideas for making decisions in a debate setting. "Spotlight on Technology" and examples highlighting major chapter concepts involving the use of technology have been interspersed throughout and encourage students to think about the appropriate use of technology in teaching mathematics. Daniel Brahier is Associate Professor of Mathematics Education at Bowling Green State University in Ohio and a current eighth grade teacher. He is also the author of *Assessment in Middle and High School Mathematics: A Teacher's Guide* (Eye On Education, 2001). With experience as a teacher, administrator, guidance counselor, and curriculum coordinator, his teaching and writing draws from every angle.
