Intermediate Accounting IFRS Donald E. Kieso 2020-07-08 Essential knowledge of International Financial Reporting Standards for students of global accounting This important work provides the tools global accounting students need to understand international financial reporting standards (IFRS) and how they are applied in practice. This text emphasizes fair value, proper accounting for financial instruments, and new developments in international accounting. By presenting IFRS in light of current accounting practice, this book helps students gain practical knowledge of the topic that they can apply as they advance into their global accounting careers. With this revised and updated Fourth Edition, students will develop a firm conceptual understanding of IFRS, as well as the ability to integrate their learning through practical exercises. Throughout this text, Global Accounting Insights highlight the important differences that remain between IFRS and U.S. GAAP, discussing the ongoing joint convergence efforts to resolve them. Comprehensive, up-to-date, and accurate, *Intermediate Accounting IFRS* includes proven pedagogical tools designed to help students learn more effectively. Comprehensively covers the latest International Financial Reporting Standards and how they are applied in practice Takes a comparative approach to help students understand the differences between IFRS, U.S. GAAP, and other important standards Emphasizes practical application of knowledge with end-of-chapter Review and Practice sections Provides authoritative references and citations to ensure content reliability and provide opportunities for further study Includes access to video walkthroughs, interactive content, and digital resources to support student engagement and ensure positive learning outcomes As IFRS gains broad acceptance around the world, students of global accounting will need to be intimately familiar with these standards, and prepared to keep up with the rapid changes in the international environment. *Intermediate Accounting IFRS* answers to these pressing needs, making it the clear choice for accounting courses at the intermediate level.

Ebook: Managerial Accounting - Global Edition Ronald Hilton 2014-09-16 We are pleased to present this Global Edition, which has been developed specifically to acquaint students of business with the fundamental tools of managerial accounting and to promote their understanding of the dramatic ways in which business is changing. The emphasis is on teaching students to use accounting information to best manage an organization. Each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. There is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting, and performance evaluation. Many of the real-world examples in the Management Accounting Practice boxes have been revised and updated to make them more current and several new examples have been added. This Global Edition has been adapted to meet the needs of courses outside the United States and does not align with the instructor and student resources available with the U.S. edition.
Advanced Accounting Floyd A. Beams 2006 For junior and senior-level Advanced Accounting courses *Advanced Accounting 9/e* uses the complete equity method to allow students to focus on accounting concepts rather than bookkeeping techniques in learning consolidation material. The presentation of consolidation material and the use of excerpts from popular business press and references to real world companies and governmental and non-profit institutions are used to illustrate key concepts and maintain a strong student orientation.

Financial Statement Analysis Thomas R. Robinson 2004 Robinson, Munter, and Grant's "Financial Statement Analysis: A Global Perspective" is designed especially for users of financial statements. Takes a financial statement analysis perspective. The focus is on the user of financial statements and not the preparer of financial statements. The emphasis is on the analysis and use of financial reports. Knowledge of debits and credits is not required. Emphasizes a global perspective by presenting both International Accounting Standards and U.S. GAAP Uses a step-by-step presentation to take students through the financial statement analysis process from understanding the financial statements to valuation. Motorola and Nokia are used as running case examples throughout the text. Additional real-world examples are integrated. into each chapter as appropriate. Assignment Materials Many of the end-of-chapter problems have been reproduced from AIMR CFA(R) examination released questions and sample examinations. Each chapter has a case derived from real company financial statements that can be used for class discussion or student projects.
