Facilitating Desistance from Aggression and Crime Calvin M. Langton 2022-06-29 In *Facilitating Desistance from Aggression and Crime: Theory, Research, & Strength-Based Practices*, Drs. Calvin Langton and James Worling have gathered together internationally renowned authorities in the fields of psychology, psychiatry, criminology, social work, and law, to critically examine desistance as a construct, process, and outcome as well as the place of strengths work in correctional and forensic mental health settings. Integrating theory, empirical evidence, and applied practices, this timely volume is an essential scholarly resource with a clear practical emphasis for policy makers, researchers, practitioners, and graduate students.

Applied Practice for Educators of Gifted and Able Learners Hava E. Vidergor 2015-07-21 This book is a comprehensive study and guide for the classroom teacher, the gifted program coordinator, and the graduate student, who are challenged daily to provide for individual children who differ markedly but come under the umbrella of giftedness. It serves as a wellspring that derives from theory while it offers practical application of theoretical construct in a wide variety of international settings from leaders in the field who demonstrate implementation of proven and field-tested techniques and alternative scenarios to accommodate every classroom situation. Contributors are internationally recognized experts who have come together to provide a sound, reliable source for teachers of the gifted that will be utilized time and time again by practitioners and researchers alike. Among internationally renowned scholars are: Joyce Van Tassel-Baska, Susan Johnsen, June Maker, Belle Wallace, Linda Kreger-Silverman, Dorothy Sisk, Gillian Eriksson, Miraca Gross, Gilbert Clark, Enid Zimmerman, and Rachel McAnallen. Hava E. Vidergor Ph.D. is lecturer of innovative pedagogy and curriculum design at Gordon Academic College and Arab Academic College of Education and holds a Ph.D. in Learning, Instruction and Teacher Education with specialization in Gifted Education from the University of Haifa, Israel. Carole Ruth Harris, Ed.D., formerly Director of G.A.T.E.S. Research & Evaluation, is a consultant in education of the gifted in Central Florida who holds the doctorate from Columbia University where she studied with A. Harry Passow and A.J. Tannenbaum. She has served as Associate in International Education at Harvard University, Research Associate at Teachers College Columbia University, lecturer at University of Massachusetts, Lowell and University of Hawaii, Principal Investigator at Research Corporation of the University of Hawaii, and Director of the Center for the Gifted in Ebeye, Marshall Islands.

Institutional Interaction Ilkka Arminen 2017-03-02 Institutional Interaction focuses on talk and interaction in institutional contexts. The first systematic book-length study on this expanding area, it discusses the theory and methodology of conversation analysis, focusing on studies of institutional interaction, before examining the basics of institutional interaction in selected fields. Cutting-edge new applications are assessed, such as human-computer interaction, the role of ethnography, statistics and the relationship of institutional talk to ordinary talk. Accessibly written and carefully structured to provide a sophisticated introduction to conversation analysis applied in institutional settings, the book offers a wealth of examples ranging from the classroom, to the courtroom, to the doctor's surgery. The book also features helpful suggestions for further reading, designed to appeal to students and academics in socio-linguistics, social psychology, organizational studies, management and information systems and applied linguistics.

Frontiers in Ecology and Evolution 2020 Highlights Mark A. Elgar 2021-02-26 If nothing else, 2020 reminded us that, whether we like it or not, human society forms part of a broader ecological community that includes species with management challenges. My experience in Melbourne highlighted how environmental threats to humanity are best managed when governments adopt evidence-based strategies (that might also require incentives for human cooperation). Fundamental research, ranging from quantitative natural history to broader insights about ecological and evolutionary processes, invariably forms the backbone of such evidence. The collection of papers in this 2020 Highlights eBook

represents a sample of articles in *Frontiers in Ecology and Evolution* that contribute to our collective wisdom in the discipline and generated sizeable interest among our readers. We hope you also find them interesting.

Global Practices and Training in Applied Sport, Exercise, and Performance Psychology J. Gualberto Cremades 2016-05-20 *Global Practices and Training in Applied Sport, Exercise, and Performance Psychology* offers case analysis as a vehicle to address issues and experiences in the application of sport, exercise, and performance psychology (SEPP) and the supervision/training of individuals to become professionals in the field. A follow-up to *Becoming a Sport, Exercise, and Performance Psychology Professional* (2014), this book features a discussion of real-world case examples which highlight various aspects of professional practice as well as supervision and training. Professionals from around the world, including the United States and Canada, Europe, Asia, Africa, and Australia share diverse experiences, providing a uniquely in-depth, global perspective. The case studies contained in the book were selected to provide insight into specific elements of applied practice and supervision/training through a global lens as well as demonstrate the value of incorporating case analysis and reflection into one's training and continued professional development. Case analysis is an essential part of learning and instruction. Beyond educating the reader about theories and research on related topics in the field, case analysis allows for more complex levels of learning, including analysis, synthesis, and evaluation of diverse scenarios. In Part I of this book, the cases focus on applied SEPP practice; Part II is comprised of cases that focus on training and supervision. This book is essential reading for graduate students and neophyte professionals in the field for whom it is critical to learn how to effectively apply knowledge to real-world sport, exercise, and performance psychology scenarios. In addition, the book is a useful resource for seasoned and expert practitioners and supervisors who can use case analysis as a means of continuing their professional development.

Insights in Assessment, Testing, and Applied Measurement: 2022 Gavin T. L. Brown 2024-11-15 As we enter the third decade of the 21st century, the field of education plays a more crucial role in understanding the contemporary world than ever before. Analyzing the role of education in leading and driving change through policy, practice, and constant innovation for a more inclusive education, whether it being educating students or teachers, is crucial in the development of new and improved education systems worldwide. To this end, *Frontiers in Education* is organizing a series of Research Topics to highlight the latest advancements in the field. This editorial initiative, led by Dr Gavin Brown, Specialty Chief Editor of the Assessment, Testing and Applied Measurement section, is focused on new insights, novel developments, current challenges, recent advances, and future perspectives in the field of assessment in education.

Exercise Prescription - The Physiological Foundations Kate Woolf-May 2007-09-08 Using research-based evidence, this text provides current rationale for the types, intensity, and duration of physical activity that may be prescribed to populations with commonly occurring chronic ailments. The relationship between the etiology of these conditions and the physiological effects of physical exercise for these groups of patients is explained. This text is ideal for students on courses encompassing health-related exercise and exercise prescription such as sports science, physical therapy and occupational therapy, as well as exercise professionals who may deal with rehabilitation of special populations. The book is also an ideal reference for fitness instructors, sports trainers, and medical professionals. - In depth investigation into the growing areas of exercise prescription in relation to commonly encountered medical conditions. - The book follows a consistent structure throughout, aiding the reader's comprehension and allowing ease of reference. - Contraindications are provided, as well as guidelines for effective physical activity prescriptions. - The author avoids giving specific prescriptions allowing the professional to judge from the evidence at hand what is best for each individual patient. Encourages real world

application of ideas presented. - A detailed glossary defines and explains terminology vital and unique to this field of study.

Out in Psychology Victoria Clarke 2007-05-07 Recent media debates on subjects such as same-sex marriage have fueled an interest in lesbian, gay, bisexual, transsexual, and queer (LGBTQ) perspectives. This text presents the latest thinking in LGBTQ psychology, with an international look at this complex subject.
