Pharmacy Master - The Ultimate Board Certified Geriatric Pharmacist Study Guide

Eric John Christianson
2016-12-16
Simply put, this BCGP review from Meded101 will help you pass your exam and become a Board Certified Geriatric Pharmacist. I've worked my entire career in geriatrics and wanted to share

some of that clinical knowledge with you as well as provide you an incredibly valuable study guide. Studying for a pharmacist board certification exam can be overwhelming. It's likely been a few years since you've taken an exam and the last thing you want to do is fail! The next to last thing you want to do is to try to find 3-6 months to study for the exam. As a father with two small children, I realize how valuable time is. What was frustrating to me about preparing for the Board Certified Geriatric Pharmacist (BCGP) exam, formerly the Certified Geriatric Pharmacist (CGP) exam as well as the BCPS exam was that the study material was not to the point. I felt like I needed to read thousands of pages to be adequately prepared. Recognizing that challenge of time management as a busy professional, I wanted to create the ultimate review for the BCGP exam that won't take you months to get through. I wanted to give you the most important bullet points you need to know to best prepare

for the exam. I utilized the BCGP outline to create this study guide. It breaks down nearly 80 of the most important geriatric disease states. In this breakdown I include information about the signs and symptoms, complications, risk factors, and of course the main drugs of therapy for each disease. I also break down the most important clinical pearls from the drugs of choice for each disease state. Within the medications to know breakdown for each disease state, you will find clinical pearls, important adverse effects, drug-disease and drug-drug interaction information, and essential compelling indications. While this review specifically follows the content outline for the BCGP (CGP) exam, pharmacists seeking Board Certification in Pharmacotherapy (BCPS) or those seeking Board Certification in Ambulatory Care (BCACP) may also benefit from the clinical information within this study guide. The Board Certified Geriatric Pharmacist, Board Certified

Pharmacotherapy Specialist, and Board Certified Ambulatory Care Pharmacist are designations from the Board of Pharmacy Specialties (BPS). The contents contained within this study guide are not affiliated or endorsed by BPS.

Updates for 2019! We've updated and added some content in the following disease states: Acid/Base Disorders, Bipolar Disorder, Breast Cancer, CHF, Chronic Kidney

Disease, Clostridium Difficile, Crohn's, DVT/PE, Depression, Diabetes, Gout, Migraines, Hyperlipidemia, Hypertension, PUD, Meningitis, Osteoporosis, Parkinson's, PAD, Rheumatoid Arthritis, Sepsis, Sexual Dysfunction, Shingles, STD's, Vaccines. If you talk to anyone who's taken the BCPS exam, you'll quickly understand that the BCPS exam will likely be the most challenging exam you'll ever take. You need all the resources you can get to make sure you are prepared! In addition to the exam being very difficult, you are likely a busy professional with very minimal free time. I've always had a hard time staying focused while studying from large review article type study guides and have squandered hours reading while retaining very little. This book is intended to be a crash course/cheat sheet overview of the most highly testable material. I wanted to remember the really important stuff, because I know it is impossible to know every minute detail. BCPS Bullets,

the Condensed BCPS Study Guide will help prepare you for the exam as well as help you maximize your study time. We covered over 100+ disease states straight from the BCPS content outline provided by BPS, and included important pearls for each condition including assessments, risk factors, most commonly used drugs of choice, must know adverse effects, miscellaneous clinical pearls, notorious drug interactions, warnings and precautions, and of course, relevant labs. I wanted to cover each disease state in 1-2 pages to try to ensure you are reviewing the most relevant content. We did go over 2 pages on some disease states, but we did our best to keep the information concise and critical for you to know in your preparation to becoming a Board Certified Pharmacotherapy Specialist. The book is over 300+ pages, but it is in bullet point format and very easy to digest multiple disease states at a sitting. There is also some white around the margins to

take additional notes or highlight essential information to remember. As many of you are aware from the content outline, the BCPS exam is not all clinical. In addition to the disease states on the BCPS content outline, we've also included sections on biostatistics as well as important regulatory issues. I can assure you that there is no doubt this book will help in your preparation to becoming a BCPS pharmacist! The Board Certified Pharmacotherapy Specialist (BCPS) is a designation from the Board of Pharmacy Specialties. The contents within this study guide are not affiliated or endorsed by the Board of Pharmacy Specialties.

Colitis, and Vaccines. In addition, we've created a section on the rapidly growing topic of Pharmacogenomics. If you are a pharmacist seeking to become board certified in geriatrics by passing the exam, this is a must-have study guide. We've edited our VERY popular BCPS Bullets book and created a review for the geriatric pharmacy exam based on the Board of Pharmaceutical Specialties content outline. With recent PASS rates around 40%, you have to have the right tools to pass this exam and this book will help immensely. In addition to the exam being very difficult, you are likely a busy professional with very minimal free time. I've always had a hard time staying focused while studying from large review article type study guides and have squandered hours reading while retaining very little. This book is intended to be a crash course/cheat sheet overview of the most highly testable material. I wanted to remember the really important stuff because I know it is

We have covered over 100+ disease states with critical clinical pearls, like drugs of choice, drug interactions, disease state education, and geriatric-specific nuggets for certain medications. Biostatistics basics, important geriatric terminology, social, financial, and emotional considerations are also included in this book. Items like elder abuse, advanced directives, and power of attorney show up in the content outline and we have also outlined the basics of this terminology. I can assure you that there is no doubt this book will help in your preparation for becoming a BCGP certified pharmacist! Pharmacotherapy 1994
Board Certified Pharmacotherapy Specialist (BCPS) Certification Study Guide 2026-2027 Matilda Pearce You've studied hard—but when the pressure hits, will your knowledge hold up? The difference between passing and falling short is rarely what you know. It's how you think, how you decide, and how you respond when every

question feels like a real patient in front of you. This book was written for that exact moment. If you're preparing for the Board Certified Pharmacotherapy Specialist exam, you already understand the weight behind it. This is not just another credential. It's a defining step—one that can open doors, elevate your clinical authority, and place you at the center of critical treatment decisions. But getting there requires more than memorising drug facts. It demands clarity under pressure. It demands precision in complex situations. It demands confidence when the answer isn't obvious. That's where this guide changes everything. Inside, you won't find dry explanations or surface-level summaries. You'll experience a learning approach built around how real clinicians think and act. Concepts are broken down in a way that makes sense immediately, then reinforced through realistic scenarios that mirror what you'll face in the exam—and beyond it. You'll learn how to

approach difficult questions without second-guessing yourself. You'll begin to recognise patterns faster, interpret clinical data with confidence, and make decisions that feel grounded, not rushed. The kind of understanding that stays with you long after the exam is over. Imagine walking into the exam room knowing you're not just prepared—but ready. Ready to analyse, prioritise, and respond with clarity. Ready to face unfamiliar questions without panic. Ready to perform at your best when it matters most. This is for the pharmacist who refuses to leave success to chance. For the professional who wants to move beyond uncertainty and step into mastery. For the candidate who is determined to pass—and do it right the first time. Your next level starts here. Open the book. Start reading. And step into the confidence you've been working toward.
