J.K. Rowling: A Bibliography 1997-2013 Philip W. Errington

2015-02-26 'As someone who respects comprehensive research, I am in awe of the level of detail and amount of time Philip Errington has dedicated to this slavishly thorough and somewhat mind-boggling bibliography.' J. K. Rowling This is the definitive bibliography of the writings of J. K. Rowling. In addition to complete bibliographic details of each edition of all her books, pamphlets and original contributions to published works, there is detailed information on the publishing history of her work, including fascinating extracts from correspondence, and information on Rowling at auction. This will be the first source on Rowling consulted by textual scholars, book dealers and collectors, auction houses, critics and researchers. The aim of the book is to record fact and dispel rumour on the fascinating publishing history of the Harry Potter series.

The Long Wave in Economic Life J.J. Van Duijn 2013-11-05 Of all fluctuations in economic activity, the long wave or Kondratieff cycle is easily the most puzzling and least understood one. Does it really exist, and if so, is it only a cycle in prices or a cycle in economic activity at large? What causes it, and has it been confined to Europe or does it affect the world economy as a whole? These questions, which seemed of little relevance in the prosperous years of the postwar growth era, have

gained new importance since 1973. With the downturn of the long wave, interest in it has enjoyed a revival, as it did in the 1930s. A great number of publications on the long wave have appeared since 1973, many of which have added to our insight of what causes the recurrent alternations of growth acceleration and retardation. This book is the first in the English language in which all important long wave theories, old as well as recent, are brought together. It focuses on the long wave as an international phenomenon, affecting all industrialised countries. It contains new theory as well as empirical evidence and in the final section suggests a number of policy recommendations to generate innovation. This book offers an interpretation of long-term economic development different from those commonly found in the literature. It will be of interest to students and scholars of the economics of growth and change, as well as to economic historians and policy-makers. This book was first published in 1983.

Rudyard Kipling David Alan Richards 2010 This new bibliography of Rudyard Kipling, the first English-language author to win the Nobel Prize for Literature, is the first to appear in fifty years and the first to incorporate modern standards of collation, binding cloth description, publication dates and prices, and dust jacket description. It fully describes 480 first editions, authorized and unauthorized, appearing as books, pamphlets, leaflets, and broadsides from 1881 through 2008 in British India, England, the United States, Canada, New Zealand, South Africa, and Chile--a dozen of which titles were not noted by prior bibliographers. This work also includes 127 titles of books with contributions from Kipling, 17 titles containing prefaces, introductory letters and forewords by Kipling, and 123 titles first printing his private letters. These primary entries, besides describing each edition by

publication type, size, pagination formula, binding, binding texture, ISCC-NBS color system name, dust jacket, copyright data, and cross-references to prior bibliographies, also include information on institutional library locations, manuscripts, and significant first editions of the title in later publishers' series and in other countries. Also described are all important association and presentation copies of Kipling's earliest works, with full inscriptions and institutional collection locations. Other major sections describe collected and uniform sets, editions listed by prior bibliographers that are not first editions but are collectible, and misattributions. Significant innovations in this bibliography include the first complete chronological list of all of Kipling's newspaper and periodical appearances, the first examination of all English and American auction sale catalogues with lots of his editions (significant copies are cross-referenced in the entry texts), and separate listings of unauthorized private editions and private editions as first editions, musical settings of the poems, plays based on Kipling's works, film treatments in motion pictures and for television, published drawings and caricatures, and Kipling's symbols: the swastika and the Ganesh. Further appendices include a chronology of the author's life and major works, and titles of biographical studies of Rudyard and his immediate family. These contents are present in one substantial volume containing the primary entries, grayscale images of bindings and title pages, and indices. The second volume, containing all the other classified sections, is included on the enclosed CD-ROM, along with color images of bindings and title pages.
