**Feasible Planet - A Guide to More Sustainable Living** Ken Kroes 2017-11-05 Are you concerned about the state of our planet and hope that governments and corporations will find a sustainable way for us to live? If you do not think about it too hard, that may work, but will it? Left on their own, with drivers of popularity and profits, I am not too convinced that it will. The missing part of this equation is you and me. Individuals who believe that corporations and governments can do better. Individuals who believe that through action, we can buy a bit more time to develop and implement solutions to our critical issues. Did I hear a groan out there when you read the word 'actions'? Do not worry! Most of the actions that I am referring to will not only help save the planet, but will benefit you right away through saving money, time, better health, and having a happier life in general. Sustainability goes beyond controlling our consumption and pollution. There are key social, political, and economic areas that need to be addressed as well, and there are several steps that individuals can take to help in these areas. For those of you who feel we could do more, this book is for you and is loaded with actionable activities, the reasons for doing them, and explores why we are not doing them already. Every journey starts with a first step. Hopefully this book will lead to those first sustainable steps and that will change the world.

How to Control Your Mind Like a Car Instead of a Rollercoaster

Marcellus Stanley 2018-12-28 At times we all may get a little frustrated with our minds and how we think. Sometimes you may feel your thoughts are controlling you instead of you being in control of your thoughts. This book can help you to see how you can be more empowered to take control of your mind and thinking. It helps you to understand that if you can learn to drive and control a car, then you can use those same skills to be in more control of your mind and your life. In my own unconventional way I want you to know that every time you get behind the wheel of your car that you are in control. The same way that you and controlling that car, you can do the same by your controlling your mind instead of letting it go like a rollercoaster Let's face it, we are all on a journey and it depends on what transportation you use and the roads you take that will determine the adventures that you experience along the way. Since life is full of ups and downs and unexpected twists and turns, it's important that we take time to learn how to best navigate it. My goal is to give you a few life hacks that may very well show you some better ways to help navigate and control your mind through this journey of life like you would a car, instead of letting it go like a rollercoaster.
